- 66 Key Ring **NEW**

A one-of-a-kind masterpiece, meticulously created by master craftsmen who truly appreciate your love for your vehicle.

"We never compromise on the beauty of our creations." This is the motto of Takumi Kobo, a group of sheet metal craftsmen dedicated to working on Lexus vehicles. It is also the belief of vehicle craftsmen.

Each craftsman carefully focuses on the subtle nuances of technique and mindset needed to create hand-crafted fuel cap covers.

These works of art connect owners and vehicles through the pinnacle of craftsmanship.

Embrace a beautiful connection with your vehicle every time you open the fuel door.

TAKUMIKOBO

Creating beauty through craftsmanship unmatched by machines.

The skilled artistry of sheet metal artisans combines the delicacy of traditional crafts with the precision of automotive craftsmen.

These fuel cap covers are produced through the unparalleled skill of these artisans.

## 1 Special hammering

The inherited techniques and tools for shaping vehicle exteriors are expertly applied. Specially prepared hammers create distinctive patterns on each workpiece.

## 2 Heat treatment using burners

Following the hammering process, the cap covers are heated with a burner to develop their color. This heat treatment is exclusive to the new TAKUMI ENREI series. Since even slight differences in the heating method and heating time cause subtle changes in color, the optimal tempering is determined through the experience and aesthetic perception of expert metal craftsmen.

The newly introduced TAKUMI ENREI series employs advanced welding techniques to join metals, resulting in a lustrous shine and rich colors that highlight the intrinsic qualities of the materials. Such exquisite elegance and shine cannot be achieved with paint. These fuel cap covers embody a new kind of beauty, born from traditional craftsmanship.

Enrei

### 1. Fuel Cap Cover by TAKUMI Car Craftsmen

NEW

#### TAKUMI ENREI HIAI

While preserving the metal's smooth texture, craftsmen heat the surface until the material turns crimson, causing it to express a deep indigo blue.

242C001 **45,100 yen** (tax incl.)

242C002 **48,100 yen** (tax incl.) Personalized Name Service

NEW

#### TAKUMI ENREI HIAI-TAN

The process of shaping and refining the metal is expressed in a radial pattern. The crimson blue color further enhances the delicate design.

242C003 **60,000 yen** (tax incl.)

242C004 **63,000 yen** (tax incl.) Personalized Name Service

NEW

#### TAKUMI ENREI HIAKI-RAN

This limited-edition product for autumn and winter is inspired by the ginkgo tree, renowned for its fire-resistant properties, and is finished in a luxurious dawn color at temperatures just before it turns crimson.

242C005 **60,000 yen** (tax incl.)

242C006 **63,000 yen** (tax incl.) Personalized Name Service

Material: [Body] Stainless steel [Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive  
Stainless steel size: 67 (DIA) x 18mm (H) Made in Japan

Spindle

The spindle is a brand icon of Lexus vehicles. This series features spindle patterns created with lasers and hammers, highlighting the premium quality of the metal.

#### Spindle Luster -YOI

Carefully polished to achieve a stunning shine and luster, the delicate pattern evokes the beauty of stars and moonlight, creating an impression of luxury.

241C003 **80,300 yen** (tax incl.)

241C005 **83,300 yen** (tax incl.) Personalized Name Service

#### Spindle Premium Matte -HAKUJITSU

The matte texture exudes a sense of quality. While highlighting the smoothness of the metal, it evokes the image of translucent white sunlight and the radiance of the sun.

241C004 **80,300 yen** (tax incl.)

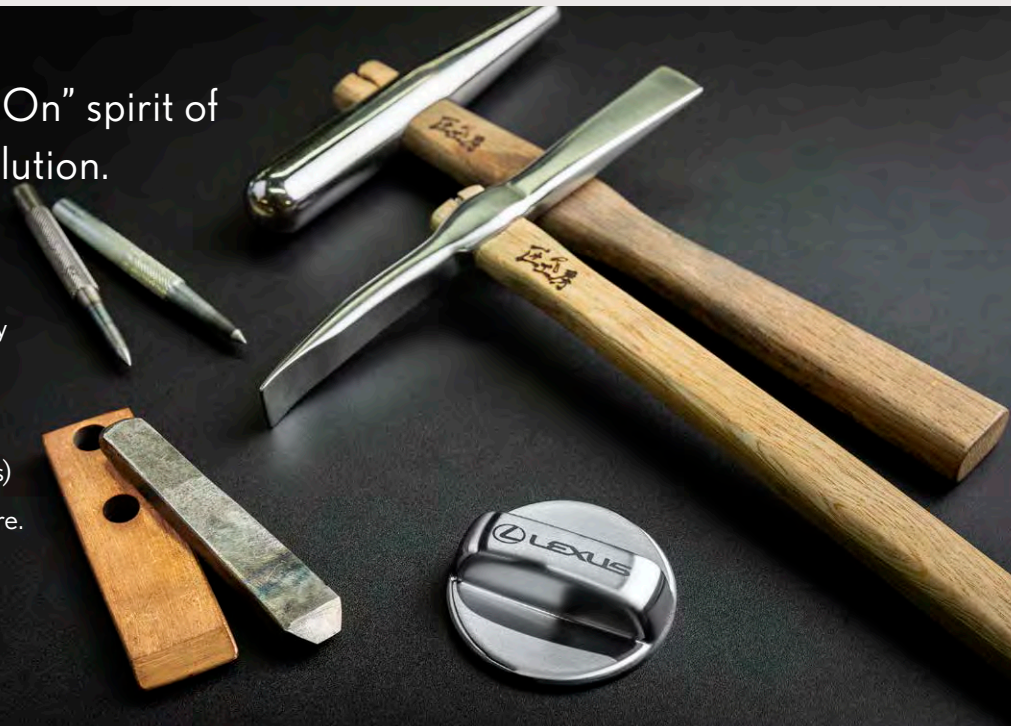

241C006 **83,300 yen** (tax incl.) Personalized Name Service

Inheriting the "Always On" spirit of pursuing constant evolution.

Constantly striving to improve by embracing ever-evolving technology and responding to contemporary needs, Takumi Kobo continues the monozukuri (the art of making things) with the aim of creating a better future.

### 1. Fuel Cap Cover by TAKUMI Car Craftsmen

**PLAIN**  
The PLAIN variation enhances the smoothness of stainless steel.

232C002 **31,300 yen** (tax incl.)  
241C007 **34,300 yen** (tax incl.) Personalized Name Service

**LAND**  
The LAND variation is a bold expression of natural terrain.

232C004 **37,500 yen** (tax incl.)  
241C009 **40,500 yen** (tax incl.) Personalized Name Service

**MOKU**  
The MOKU variation expresses the complex figure of wooden material.

232C005 **42,900 yen** (tax incl.)  
241C010 **45,900 yen** (tax incl.) Personalized Name Service

Material: [Body] Stainless steel  
[Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive  
Stainless steel size: 67 (DIA) x 18mm (H) Made in Japan

Number of characters	Up to one line with 15 characters

### TAKUMIKOBO 匠工房

For more than 80 years, the city of Toyota in Aichi Prefecture is home to the finest craftsmen of sheet metal for automobiles. They create the first prototypes of the Toyota and Lexus models, and this group of sheet metal craftsmen are called the "TAKUMI KOBO". They refine the skills that have been passed down from predecessors to deliver them in a new form for Lexus customers.

The gentle passage of time is reflected in the rings of natural wood nurtured by the Earth.

The appearance of the wood grain varies based on the age and environment of the tree. Each piece is handcrafted by skilled artisans to highlight the unique wood grains and create artistic KISSHO patterns\*1 The individuality and warmth of natural wood contribute to a serene and elegant atmosphere of relaxation.

ICHIMATSU

Weight: Approx. 400 g Accessories: One AA battery, Auxiliary leg (for display as a table clock)  
Body: Made in Japan, Movement: Made in Thailand

KISSHO patterns\*1

\*1 KISSHO patterns: Auspicious motifs

ICHIMATSU pattern

The ICHIMATSU pattern has been used for decoration since ancient times. Since the pattern connects endlessly in all directions, it is an auspicious pattern that represents wishes for prosperity and bonds with others.

YABANE pattern

The YABANE pattern depicts arrow feathers which rotate while cutting through the wind and guiding the arrow to its target. This lucky pattern is said to bring good luck on the battle field and a successful career.

HAMON pattern

A traditional Japanese pattern, HAMON is a lucky pattern which represents the continuation of a peaceful life.

SHIMA pattern

The SHIMA pattern is formed by alternating thick lines and thin lines. This pattern is also called Koukou, which means "filial piety." It is said to bring a safe and prosperous household.

### MIMATSU Craft Ltd.

Founded in 1972. Manufactures furniture parts for the leading furniture production areas, Okawa and Morodomi. By utilizing the woodworking techniques of craftsmen in Saga Prefecture, MIMATSU Craft creates products with outstanding design and functionality. For example, the company launched the original brand M.SCOOP in 2008. MIMATSU Craft won the 2018 Wood Design Award and the 2018 Fukuoka Design Award.

\* For products #2 and #3, due to the use of natural materials, the colors, patterns, and textures may differ.

\* Products #2 and #3 use an SKP movement, which is sold by Seiko Time Creation, Inc.

# Beautiful Form, The Artistry of Lexus' Craftsmanship.

This high-back chair and ottoman are produced using the "Molded Plywood"<sup>\*1</sup> technology, which is also used in the manufacture of Lexus steering wheels. Molded Plywood construction involves thin boards layered on top of each other, allowing the grain of the wood to intersect and create a delicate, beautifully curved surface.

Natural/Orange

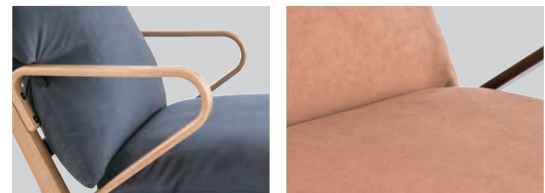

Natural/Hazel

Brown/Dark Gray

Ultrasuede<sup>®</sup>, used in the Lexus RZ seats, is a high-quality suede-like synthetic leather developed by Toray which utilizes cutting-edge technology to achieve both a pleasant texture and high durability.

Strong, supple form achieved by using molded plywood technology

Smooth texture and beautiful coloration

A steel plate with the Lexus mark and logo on the back.

## 4. High Back Chair/Ottoman

High Back Chair 241C001 **306,600 yen** (tax incl.)  
Ottoman 241C002 **142,100 yen** (tax incl.)

The high back chair and ottoman by Tendo Mokko feature Ultrasuede<sup>®</sup> BX<sup>\*2</sup> upholstery, the same material used in Lexus RZ seats, providing excellent water and stain repellency. Utilizing the same 'Molded Plywood' construction found in Lexus steering wheels, it imparts a light impression and solid strength. The design creates a relaxing and comfortable atmosphere for spending time with family and friends, sitting for long hours watching movies, listening to music, or any other occasion.

Material: [Frame] Beech (White Beech) [Upholstery] Toray Ultrasuede<sup>®</sup> [Plate] Steel  
Size: [High Back Chair] 654 mm (W) × 1,060 mm (H) × 914 mm (D) 404 mm (SH) Weight: Approx. 11.7 kg Maximum load weight: 90 kg  
[Ottoman] 654 mm (W) × 404 mm (H) × 450 mm (D) 404 mm (SH) Weight: Approx. 5 kg Maximum load weight: 90 kg  
Made in Japan

This product will be shipped 45 days after order receipt.

<sup>\*1</sup> Molded Plywood: This is a technique where the wood is bent by applying glue to a piece of wood about 1 mm thin, overlapping it, placing it in a mold, then applying heat.

<sup>\*2</sup> Ultrasuede<sup>®</sup> BX: A sustainable suede-like synthetic leather partially made from plant-derived materials. Ultrasuede<sup>®</sup> is a registered trademark of Toray Industries, Inc.

<sup>\*</sup> Because wood is a natural material, there are individual differences in the appearance of the wood grain.

<sup>\*</sup> Four felt pieces are included with each high-back chair and ottoman.

<sup>\*</sup> Due to the use of natural materials, the colors, patterns, and textures of delivered products may differ from the photograph.

## Customizable Items (Product #4)

Customize the look by choosing your favorite combination of wood and cushion color.

A stool designed in the motif of a spindle pattern. Using the molded plywood<sup>\*1</sup> technology which is also applied to Lexus steering wheels, several thin wooden boards are stacked and bent while applying pressure to achieve high strength. There are two options available: Shimamoku<sup>\*3</sup> (synthetic wood with distinctive stripes) used in the interior of Lexus vehicles, and Japanese cedar, a tree species unique to Japan. The unique RPW technology<sup>\*4</sup> of Tendo Mokko is used to process the Japanese cedar to the appropriate hardness of furniture. The stool can also be used as a side table.

Shimamoku (black)

Shimamoku (natural color)

Japanese Cedar (natural color)

## 5. Stool

Shimamoku (black) 192C002 **170,600 yen** (tax incl.)  
Shimamoku (natural color) 192C003  
Japanese Cedar (natural color) 192C004

The Lexus mark and logo are laser engraved on the stainless steel plate.

Material: [Surface Material] Agathis wood/Cedar [Core Material] White beech [Plate] Stainless steel  
Size: 357 mm (W) × 420 mm (H) × 357 mm (D) Weight: 4.7 kg Maximum load weight: 150 kg  
Made in Japan

This product will be shipped 45 days after order receipt.

## Tendo Mokko

A furniture designer and manufacturer with its headquarters located in Tendo City, Yamagata Prefecture. Tendo Mokko was the first Japanese manufacturer to introduce molded plywood technology to furniture making. The company's utilized technology is also used in Lexus steering wheels and interior panels. Numerous furniture masterpieces created by Tendo Mokko have been selected for permanent collections at various museums in the United States and Europe.

<sup>\*3</sup> Shimamoku patterns: Thinly sliced Agathis wood is dyed black, bleached, laminated, and then sliced again to create the striped pattern.

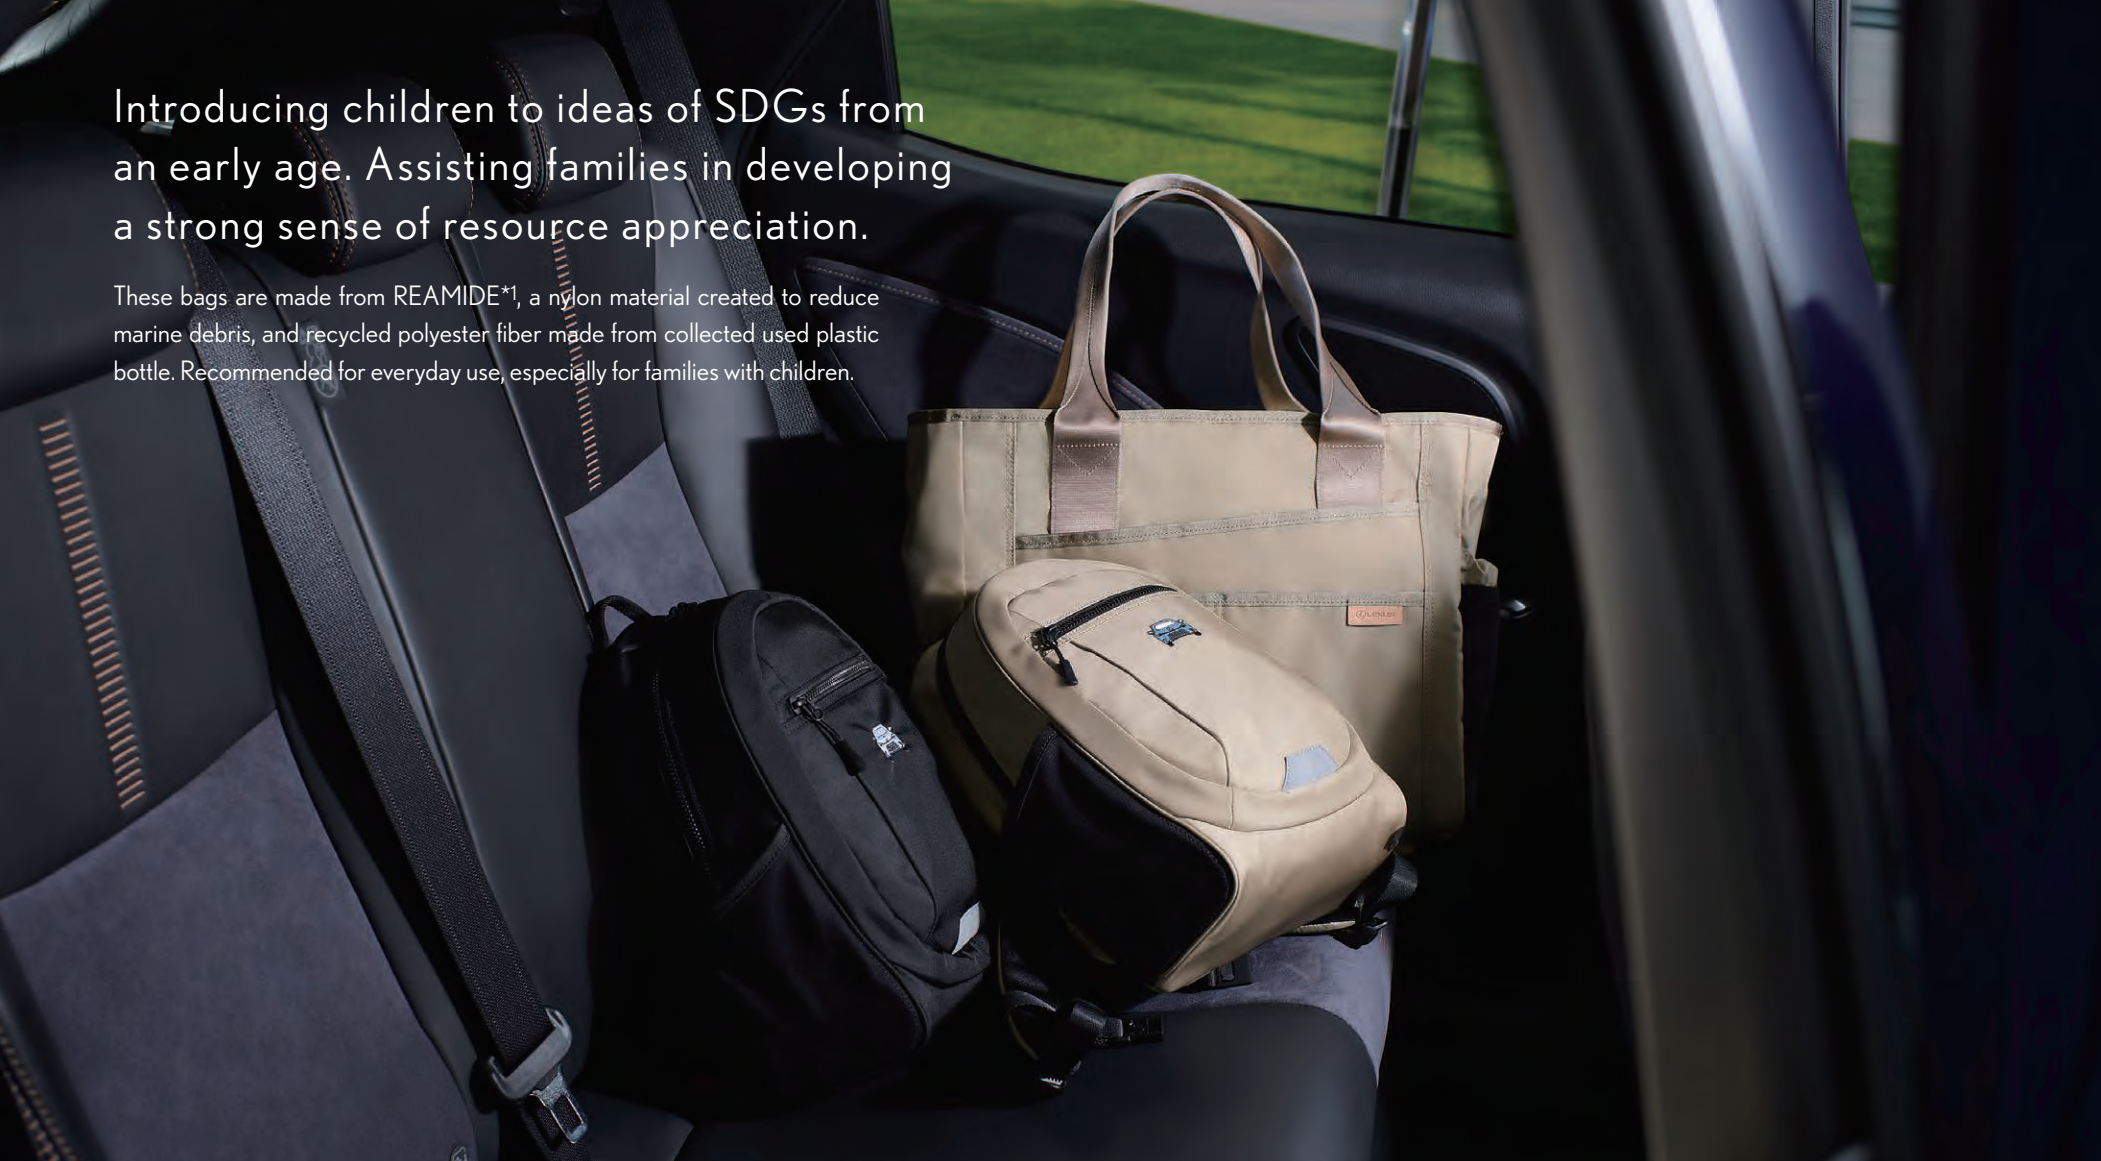

<sup>\*4</sup> RPW technology: This technology achieves high hardness by using a roller to consolidate (press and adhere) soft woods such as cedar.

<sup>\*</sup> Due to the use of natural materials, the colors, patterns, and textures of delivered products may differ from the photograph.

Introducing children to ideas of SDGs from an early age. Assisting families in developing a strong sense of resource appreciation.

These bags are made from REAMIDE\*1, a nylon material created to reduce marine debris, and recycled polyester fiber made from collected used plastic bottle. Recommended for everyday use, especially for families with children.

Material: Polyester, Cowhide, Artificial leather, Nylon, Zinc alloy  
Size: 270 mm (W) × 195 mm (H) × 120 mm (D)  
Weight: Approx. 650 g (excluding the shoulder belt)  
Made in Vietnam

The inner color is gray

\*1 MU-TECH ECO®: A sustainable material made from 100% recycled nylon yarn and featuring a water-repellent finish. MU-TECH ECO® is a registered trademark of C. Murata and Co., Ltd.  
14 \* For products #17 to #20, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

\*2 CORDURA® Hollofil AIR™ Fabric: In addition to the durability of CORDURA Fabric, this material uses hollow fibers to achieve light weight. CORDURA® is a registered trademark of INVISTA.  
\*3 ECO PET®: Recycled polyester fiber made from collected used plastic bottles. ECO PET® is a registered trademark of TEIJIN LIMITED.  
\* For products #21 and #22, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

A bag made from discarded fishing nets, designed to help reduce marine debris and support a recycling-based society.

It is estimated that 8 million tons of marine plastic waste is generated annually worldwide. This plastic is said to be the most serious problem of marine pollution. Born from the mission of reducing marine debris, REAMIDE is a nylon material upcycled from discarded fishing nets. Denim material is woven into the bag to create an enjoyable texture. The interior fabric is woven from ECOPEP<sup>®</sup>\*1, a fiber made from recycled plastic bottles.

**25. Tote Bag (REAMIDE DENIM)**

232C006 **25,000 yen** (tax incl.)

This tote bag has a large opening which makes it perfect for everyday use. It has three pockets on the outside, and two pockets and one zipper pocket on the inside.

Material: Nylon, Cotton, Cowhide, Polyester, Zinc alloy

Inner pocket

Items #25 to #27 have a Lexus mark and logo tag on the inside.

\*1 ECOPEP<sup>®</sup>: Recycled polyester fiber made from collected used plastic bottles. ECOPEP<sup>®</sup> is a registered trademark of TEIJIN LIMITED.

\* The main body fabric (REAMIDE DENIM) uses indigo dye. Due to the nature of the material, it is prone to color transfer and fading.

Please note that the color may migrate to other items (clothing, sundries, accessories, sofa, car seats, etc.) due to friction.

Please note that color fading is more likely to occur when the bags are wet due to perspiration or rain.

On products #30 and #31 the inside has a leather tag with the Lexus mark and logo.

\*2 CORDURA<sup>®</sup> TrueLock<sup>™</sup> Fabric: A robust and durable material designed to minimize environmental impact in the manufacturing process. CORDURA<sup>®</sup> is a registered trademark of INVISTA.

\*3 Ecouse<sup>®</sup>: A recycled fabric from Toray made from reused materials in order to effectively utilize the Earth's limited resources.

\* For products #28 to #31, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

A whimsical camouflage pattern.  
Using recycled fiber ECOPEP®\*1 makes it eco-friendly.

**32. Backpack (Shadow Camouflage)**

241C019 **37,400 yen** (tax incl.)

Made in Japan

Body (Carbon fiber)

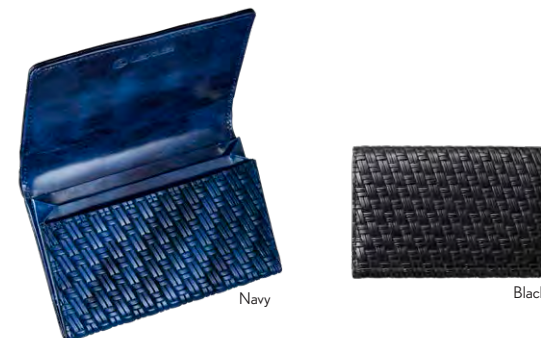

**42. Business Card Case (Calfskin leather with crocodile textured pattern)**

Black 241C056 **17,100 yen** (tax incl.)  
Royal Blue 241C057  
Gray 241C058

This crocodile-style card case with accordion-style gussets is crafted from high-quality calf leather, offering a luxurious and lustrous texture. "Accordion-style gusset" is one of Japan's traditional techniques, named because the shape of the outward-folding gussets resembles the bellows of an accordion. The inside is made of eco-friendly LWG\*2 certified leather, and each piece is carefully finished by a single craftsman who carries out each step of the process.

Material: Cowhide, Nylon  
Size: 113 mm (W) × 77 mm (H) × 15 mm (D) (holds about 40 business cards) Made in Japan

**43. Business Card Case (Intrecciato texture)**

Navy 172C051 **17,100 yen** (tax incl.)  
Black 172C052

This business card case is embossed in an intrecciato style that resembles weaving and is made using the technique fukin-machi (accordion gusset). The name of this traditional Japanese technique refers to how the shape of the outward-folded gussets resemble the shape of an accordion bellows. This design prevents the edges of business cards from sticking for smooth insertion and removal. Each case is carefully finished by a single craftsman who handles all production processes. The Lexus mark and logo are embossed inside of the case.

Material: Cowhide Size: 113 mm (W) × 75 mm (H) × 15 mm (D) (holds about 40 business cards) Made in Japan

\*2 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

\* For products #42 and #43, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Due to the characteristics of leather, the color and texture of delivered products may differ from the photographs.

## Exquisite craftsmanship evident in every detail.

An elegant necktie made in Kyoto, a city with a long history as a textile production center. The iconic spindle pattern is beautifully expressed with jacquard weaving done in the traditional and ornate mon-orimono technique.

### 44. Necktie (Jacquard micro-pattern)

NEW

### 51. Men's Belt (Shrunken finish)

Black 242C027 **15,700 yen** (tax incl.)  
 Dark Brown 242C028

A belt made from eco-friendly Italian LWG\*1 certified leather. Crafted from genuine leather with a soft and smooth texture, and embossed with a shrunken finish. Features a rounded buckle and a slightly slim design that goes perfectly with a variety of business occasions.

Material: Cowhide, Zinc alloy  
 Size: 1,145 mm (L) × 30 mm (W)  
 Fits waist sizes up to 100 cm  
 Made in Japan

Lexus mark and logo (Embossed)

\* For products #51 and #52, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

### 52. Men's Belt (Reversible/crocodile texture)

241C128 **16,800 yen** (tax incl.)

Black leather is embossed with a crocodile texture.

Color: Black (crocodile texture) × Dark Brown (smooth)  
 Material: Cowhide, Brass  
 Size: 1,150 mm (L) × 35 mm (W)  
 Fits waist sizes up to 100 cm (can be adjusted by cutting)  
 Made in Japan

\* The expression created by the crocodile textured pattern differs depending on the part of leather.

### 53. Pocket Handkerchief (Edo-Komon Skull)

Navy 182C005 **9,880 yen** (tax incl.)  
 Light Gray 182C006

The skull pattern was designed based on the concept of the way in which all life flows, and the act of living in this world and Buddhist paradise. Dozens of processes are performed with great care and attention to detail. For example, hand-carved paper patterns hardened with persimmon juice are placed on white silk cloth, after which fine patterns are drawn using glue and a spatula.

Material: Silk 100% Size: 350 mm (W) × 350 mm (H) Made in Japan

\* Because each item is handmade, the color, pattern, and texture of delivered products may differ from the photograph.

小紋廣瀬 Craftsman in Edo-Komon dyeing Hirose Yuichi

Born in 1978 in Shinjuku, Tokyo. He is a fourth-generation craftsman of the Hirose Dyeworks, which was founded in 1918. In 2014, he was selected as an award-winner at the 54th Exhibition of East Japan Traditional "Kōgei" and the 61st Japan Traditional Kōgei Exhibition. In 2015, he was selected as an award-winner at the 49th Japan Traditional Textile Arts Exhibition. When viewed from a distance, it looks like a plain fabric. However, if you take a closer look, you would find breath-taking delicate patterns. Hirose conveys this style and flair of Edo-Komon to the world.

\*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment.  Size: [For iPhone XR] 81 mm (W) × 157 mm (H) × 15 mm (D) Made in China

## Sustainable Nishijin Textile®\*3 items.

These sustainable items utilize the surplus parts of Nishijin Textile®\*3 used for the door trim of the Lexus LS. This Nishijin Textile®\*3 is decorated with a motif of the natural phenomenon "moon road" (when the moon creates a path of light on the nighttime sea) that can be seen only for a few days before and after the full moon. The brilliance of silver thread replicates a beautifully swaying scene of a long and narrow moonlight road on the surface of the sea. The items in this discerning collection are carefully finished one-by-one by skilled craftsmen who combine Nishijin Textile®\*3 with genuine leather.

Nishijin Textile® used for the door trim of the Lexus LS

62 Brown For 45 mm

62 Taupe For 45 mm

62 Ivory For 45 mm

62 Black For 45 mm

Products #62 to #64 are embossed with the Lexus mark and logo.

\*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

\*2 Natural shrink processing: A processing method that uses special chemicals to shrink the leather surface, thereby creating unique wrinkles and crimping texture.

\* Products #59 to #61 do not possess functionality such as pressure resistance or cushioning for when dropped. They do not support the use of wireless chargers.

\* For products #59 to #61, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Due to the characteristics of leather, the color and texture of delivered products may differ from the photographs.

\* iPhone not included. \* iPhone is a trademark of Apple Inc., registered in the United States and other countries. \* The iPhone trademark is used under license from Apple Co., Ltd.

\*3 Nishijin Textile®: Nishijin Textile® has flourished in Kyoto since some 1,200 years ago, enjoying the patronage of the nobility and warrior class as well as wealthy townspeople. Production requires more than twenty highly specialized steps, with each overseen by an expert artisan, all dedicated to the pursuit of beauty. Nishijin Textile® is a registered trademark of the Nishijin Textile Industrial Association.

\*4 Scotchgard™: A registered trademark of 3M Corporation for water repellency and stain resistance.

\* The patterns will differ from the delivered products depending on the cutting point.

\* For products #62 to #64, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

# Supporting a comfortable lifestyle through new technology.

Hydro-Silver Titanium<sup>®</sup> (Hyd[AgTiO<sub>2</sub>]) born out of the ideas of doctors.

Hydro-Silver Titanium<sup>®</sup> (Hyd[AgTiO<sub>2</sub>]) is a unique clean technology developed by DRC Medical Medicine Co., Ltd. The technology breaks down proteins into components such as water, carbon dioxide, and nitrogen. Hydro Silver Titanium<sup>®</sup> processed into mask and towel fabric enables fibers to absorb and break down proteins such as pollen and house dust, as well as unsanitary proteins. In addition, proteins that cause sweat odor are also absorbed and broken down. Therefore, the masks and towels can be continually used comfortably while suppressing odors.

## 65. Mask (Gauze) +3, Mini Towel Handkerchief +4 Set (Hydro-Silver Titanium<sup>®</sup>)

Pink 212C010 **2,250 yen/set** (tax incl.)  
 Navy (material: chambray) 212C012  
 Brown (material: chambray) 212C013

Offering high absorbency and moisturizing properties, this gauze cloth mask is composed of five layers including a defensive filter. This design protects against cold germs, respiratory droplets, pollen, and PM 2.5. The ear straps are made from wide, soft rubber for a comfortable fit without ear pain. The pink mask comes with a lavender mini towel handkerchief, and the navy and brown masks come with a navy mini towel handkerchief.

Material: [Mask] Cotton 100% [Filter] Polypropylene  
 [Rubber ear straps] Nylon, Polyester, Polyurethane  
 [Mini Towel Handkerchief] Cotton 100%  
 Size: [Mask] 200 mm (W) × 145 mm (H)  
 [Mini Towel Handkerchief] 250 mm (W) × 250 mm (H)  
 Set Contents: mask (gauze) (1), mini towel handkerchief (1)  
 [Mask] Made in Vietnam [Mini Towel Handkerchief] Made in Japan (Imabari)

Mask (Non-woven fabric) (3)

## 66. Mask (Non-woven fabric) +4, Mini Towel Handkerchief +4 Set (Hydro-Silver Titanium<sup>®</sup>)

202C005 **1,500 yen/set** (tax incl.)

A non-woven fabric mask is equipped with a protective filter and is suited for use against cold germs, respiratory droplets, house dust, pollen, yellow sand, bacteria, viruses, and PM 2.5. Also comes with a nose fitter that fits snugly on your nose and an anti-fog sheet for glasses. The ear straps are made from soft rubber for a comfortable fit without ear pain. A set containing a light blue mini towel handkerchief.

Material: [Mask] Polypropylene, Polyester, Polyethylene [Rubber ear straps] Nylon, Polyurethane  
 [Mini Towel Handkerchief] Cotton 100%  
 Size: [Mask] 160 mm (W) × 90 mm (H) [Mini Towel Handkerchief] 250 mm (W) × 250 mm (H)  
 Set Contents: mask (non-woven fabric) (3), mini towel handkerchief (1)  
 [Mask] Made in Japan [Mini Towel Handkerchief] Made in Japan (Imabari)

Hydro-Silver Titanium<sup>®</sup> comes in two concentrations: +3 +4.  
 The proteins which can be broken down depend on the product.

Product	Concentration	Proteins broken down by Hydro-Silver Titanium <sup>®</sup>
Mask (Gauze)	+3	Proteins and unsanitary proteins in pollen and odors
Mask (Non-woven fabric)	+4	Proteins and unsanitary proteins in pollen, odors, and house dust
Mini Towel Handkerchief	+4	Proteins and unsanitary proteins in pollen, odors, house dust, and sweat
Wash Towel		
Face Towel		

\* Depending on the type and amount of protein, some proteins cannot be broken down. The performance of the towels will vary depending on the usage environment.  
 \* Please do not use if you are allergic to silver or titanium.  
 \* Please keep usage time of the mask (gauze) or mask (non-woven fabric) to within about 12 hours per day.  
 \* Masks do not completely prevent infection (infiltration).  
 \* The color of the masks may change over time due to the effects of the Hydro-Silver Titanium<sup>®</sup> treatment, but they can continue to be used without problem.

## 67. Mini Towel Handkerchief (Hydro-Silver Titanium<sup>®</sup>) +4

Off-White 241C059 **950 yen** (tax incl.)  
 Beige Pink 231C044  
 Navy 201C053  
 Light Blue 202C006

Mini towel handkerchief with gauze fabric on the front and towel fabric on the back.

Material: Cotton 100% Size: 250 mm (W) × 250 mm (H)  
 Made in Japan (Imabari)

## 69. Wash Towel (Hydro-Silver Titanium<sup>®</sup>) +4

Spindle pattern Pink 221C014 **1,300 yen** (tax incl.)  
 Spindle pattern Navy 221C015

Material: Cotton 100% Size: 340 mm (W) × 350 mm (H) Made in Japan (Imabari)

## 68. Mini Towel (Hydro-Silver Titanium<sup>®</sup>) +4

Spindle pattern Green 232C019 **950 yen** (tax incl.)  
 Spindle pattern White 222C042  
 Spindle pattern Pink 222C043  
 Spindle pattern Navy 222C044

Material: Cotton 100% Size: 250 mm (W) × 250 mm (H) Made in Japan (Imabari)

## 70. Face Towel (Hydro-Silver Titanium<sup>®</sup>) +4

Spindle pattern White 221C016 **2,000 yen** (tax incl.)  
 Spindle pattern Pink 221C017  
 Spindle pattern Navy 221C018

Material: Cotton 100% Size: 340 mm (W) × 800 mm (H) Made in Japan (Imabari)

### DRC Medical Medicine

DRC Medical Medicine Co., Ltd. is a drug discovery company that uses its unique Hydro-Silver Titanium<sup>®</sup> technology for protein decomposition, and specializes in the development of therapeutic drugs for infectious diseases and allergies. Physicians specializing in various fields cooperate in development. <https://drciyaku.jp/>

\* Mini towel handkerchief #65 and #66 are the same product as mini towel handkerchief #67.

# An aroma diffuser easily used even in spacious rooms.

Enjoy original high-quality Lexus aroma oil in your living room, private space, or office.

## Relax and unwind in the fresh scent of the forest.

100% HIBA aroma oil and aroma spray extracted from Aomori cypress trees. These trees have a lifespan of 300 years, which is longer than the average tree lifespan of 100 years. The wood contains hinokitiol, which has antibacterial, deodorant, insect repellent, and antifungal properties. Wood chips and scraps generated when processing the cypress trees are used in consideration of the environment.

### HIBA

Calming and relaxing aroma that envelops you in the warmth of wood and the refreshing aura of the forest.  
<Ingredient> Hiba

80

#### 80. Aroma Oil HIBA (30 ml)

\* The virus elimination rate (99.0%) is strictly a value yielded in a test environment, and does not represent values obtained in aromatic use of the product in actual spaces.  
\* Not guaranteed effective against all viruses.  
\* The product is effective in inhibiting viruses, but no guarantee regarding prevention of infection is made.

## The invigorating fragrance of a forest in Mie Prefecture – an original Lexus blend.

This gentle natural aroma is based on oil extracted from hinoki cypress trees in Toyota Mie Miyagawa Forest. Toyota Motor Corporation believes that we can regenerate forests in Japan by leveraging our overseas tree-planting experiences and our expertise cultivated in automobile manufacturing. In 2007 we acquired mountain-forest land in the former Mie Prefecture village of Miyagawa (now the town of Odai) in 2007 and launched forest restoration efforts.

### HINOKI

The fresh and soothing hinoki fragrance feels as if you are in an invigorating forest  
<Ingredients> Hinoki Cypress, Cypress, Bergamot, Ho Wood, Spearmint, Clove

85

86

Kimura creates products which have a stately presence, yet blend into daily life as an essential part of the owner's lifestyle.

\* Please do not expose the glasses to sudden temperature changes.  
\* Products #88 to #91 cannot be used in microwave ovens or dishwashers.  
\* For products #88 to #91, because each item is handmade, the color, pattern, and texture of delivered products may differ from the photograph.

\*1 Pure Essential Oil: Oil extracted from natural materials.

\* For products #81, #84, and #86, please maintain a distance of about 20 cm when spraying the aroma spray on clothing.

# Creativity transmitted through the generations.

## A challenge spanning 1,300 years 《Gifu Prefecture》 Mino Ware

Mino ware is said to have continued since the Heian Period (794-1185). Mino ware has produced numerous creative vessels, such as Seto-guro, Ki-seto ware, Shino, and Oribe. Furthermore, these ceramics gave birth to a wide variety of techniques and ingenuity which have been refined over a long period of time, continuing to support creative work based on free ideas. Lexus has collaborated with potteries and ceramic designers who are embracing the challenge of new manufacturing in Mino.

Based on the concept of “using recycled soil to hold plant soil,” this sustainable planter pot is made using 30% recycled soil. You will enjoy the gentle appearance created by using recycled soil, which is a shade slightly grayer than white.

**92. Planter Pot (ground Grip) Large**  
Greige 231C047 **5,000 yen** (tax incl.)  
Holds vinyl pots of size No. 3.5  
(approximately 105 mm in diameter x 90 mm in height).  
Material: Porcelain (uses 30% recycled clay) Size: [Pot]: Approx. 117 mm (DIA) x 107 mm (H)  
[Saucer]: Approx. 96 mm (DIA) x 26 mm (H) Set Contents: 1 pot, 1 saucer  
Made in Japan

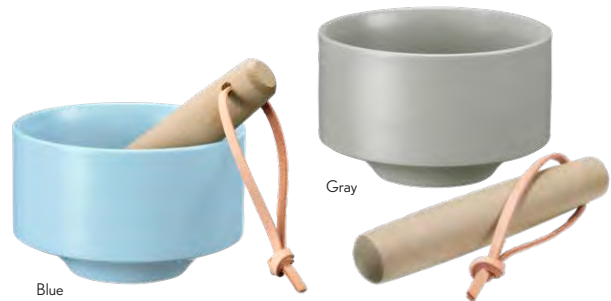

Greige

**93. Planter Pot (ground Grip) Small**  
Grayish Blue 231C050 **4,150 yen** (tax incl.)

Set Contents: 2 mugs (one of each color) Made in Japan

\* Due to the characteristics of production, patterns such as uneven color and cracks may occur.

Mint Green

Salmon Pink

Products #95, #96, and #98 have the Lexus mark and logo printed on the bottom.

\* For products #95 to #98, because each item is handmade, the color, pattern, and texture of delivered products may differ from the photograph.

Global Cup Director  
**Matsubara Keishiro**

Fourth generation president of Maruasa Porcelain Factory established in 1916. As one of Japan's foremost coffee cup designers, he uses techniques that have been passed down through generations to create works that embody the dreams of users.

Ceramic Producer  
**Ando Kosei**

Second generation president of Jozan Porcelain Corp, which has produced high-quality tableware such as airline tableware since its founding in 1968. He considers the feelings of people using the tableware in order to create items which link delicious cuisine with the meals of diners.

Craft Artist  
**Masamura Yuya**

Second generation of Shotoen founded in 1997. He has been active through the Yuzangama Kiln since 2017. His pottery is handmade in all processes from molding to design, and features the warm texture of clay.

A motif sure to delight car enthusiasts and bring a touch of fun to the dining table.

**NEW**

**99. Set of Coasters and Pot Mat (HINOKI) LM**

242C033 **7,100 yen/set** (tax incl.)

The designs are inspired by the front view, hubcaps, and steering wheel of the Lexus LM. This pot mat serves as both a teapot pad and a trivet.

Material: Japanese natural cypress  
 Size: Coaster: 90 mm (W) × 6 mm (H) × 90 mm (D)  
 Pot Mat: 150 mm (W) × 6 mm (H) × 150 mm (D)  
 Set Contents: 2 coasters (one for each design), 1 pot mat  
 Made in Japan

Thinned wood from Hinohara Village, Nishitama District is used. Enjoy the beauty of modeling by the unique grain of natural wood and skillful laser processing.

**NEW**

**100. Set of Coasters (HINOKI) CAR MOTIF**

242C034 **6,700 yen/set** (tax incl.)

The designs are inspired by the front views of the Lexus RX, RZ, LM, and LBX, as well as the Lexus mark and logo.

Material: Japanese natural cypress  
 Size: 90 mm (W) × 6 mm (H) × 90 mm (D)  
 Set Contents: 5 coasters (one for each design)  
 Made in Japan

**NEW**

**101. Set of Coasters (HINOKI) LBX**

242C035 **6,700 yen/set** (tax incl.)

These coasters are designed in the motif of the Lexus LBX's instrument meter, steering wheel, hubcaps, and front view.

Material: Japanese natural cypress  
 Size: 90 mm (W) × 6 mm (H) × 90 mm (D)  
 Set Contents: 5 coasters (one for each design)  
 Made in Japan

**102. Set of Coasters and Pot Mat (HINOKI)**

231C046 **6,000 yen/set** (tax incl.)

Designed in the motif of parts from Lexus LC models and the Lexus mark and logo. A set of three coasters and a pot mat.

Material: Japanese natural cypress Size: Coaster: 90 mm (W) × 6 mm (H) × 90 mm (D) Pot Mat: 120 mm (W) × 6 mm (H) × 120 mm (D)  
 Set Contents: 3 coasters (one for each design), 1 pot mat Made in Japan

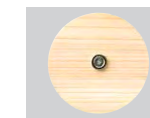

**103. Set of Magnets (HINOKI)**

231C045 **6,000 yen/set** (tax incl.)

Designed in the motif of parts from Lexus RZ/LC models and a spindle pattern.

[Diameter 210mm Plate]

[Diameter 150mm Bowl]

## Resource-Circulating Tableware

Tableware designed by renowned Japanese architect Kengo Kuma, crafted from the environmentally-friendly material TRANSWOOD. TRANSWOOD is an environmentally friendly material made from biomass resin produced from thinned wood and recycled waste cooking oil. Three exquisitely designed plates with a gradation of shaded black complement a wide variety of dishes.

### 104. TRANSWOOD Tableware Set

232C001 **29,700 yen/set** (tax incl.)

Lightweight and durable, the tableware can be used in a variety of ways. Enjoy a fine dining experience with a small number of dishes.

Material: TRANSWOOD (Japanese cedar 50%, Biomass 50%)  
 Size: 270 mm (DIA) × 20 mm (H) (Plate), 210 mm (DIA) × 20 mm (H) (Plate)  
 150 mm (DIA) × 55 mm (H) (Bowl) Made in Japan

The Lexus mark and logo and the name of Kengo Kuma are engraved on the back.

\* Due to the characteristics of the material, each piece has a different appearance.  
 Please enjoy the unique look of each piece.  
 \* Cannot be used in microwaves or ovens.  
 \* Dishwasher safe.

I designed the three TRANSWOOD plates as I sympathize with the vision of working toward a circulating society. I believe that incorporating new eco-friendly materials into our daily lives contribute to realizing such vision.

### Architect Kengo Kuma

Born in 1954, Kuma established Kengo Kuma & Associates in 1990. He is currently University Professor and Professor Emeritus at the University of Tokyo after teaching at Keio University and the University of Tokyo. With projects underway in more than 30 countries, Kuma proposes architecture that opens up new relationships between nature, technology, and people.

## hk hide k 1896

An environmentally conscious brand established in 2013 by Hideyuki Kasuga (Doctor of Engineering) under the slogan of "PRODUCE & RECYCLE." Based on the new Japanese aesthetic sense of "WABI contemporary", the brand develops environmentally friendly materials and products in a variety of categories. Kasuga also advocates "Reiwa Modernism" and is working to design a unique Japanese lifestyle which fuses the new and the old.

A beautifully-designed textile patterns capturing the delicate "moonlight path" created by the soft glow of the moon on gently rippling water.

The "moonlight path," is a mysterious natural phenomenon that can only be seen a few days before and after a full moon. It occurs when moonlight creates a long, narrow path on the surface of the sea, captivating people with the delicate gradations caused by the shimmering waves. The door trim on the Lexus LS uses Nishijin Textile® that takes the lovely sight of this "moonlight path" as its motif, replicating it with glimmering silver threads. These fine products use the same material as the Lexus LS for a glamorous lifestyle. Nishijin

Textile® has flourished in Kyoto since some 1,200 years ago, enjoying the patronage of the nobility and warrior class as well as wealthy townspeople. Production requires more than twenty highly specialized steps, with each overseen by an expert artisan, all dedicated to the pursuit of beauty. These original Lexus items are the result of collaboration with HOSOO, which continues to take up the challenge of innovative product-making that imbues this traditional Nishijin Textile® with novel sensibilities.

These Nishijin Textile® items for the Lexus collection are meticulously crafted one by one by artisans using carefully selected materials to add color to your daily life.

### 105. Nishijin Textile® Cushion (HOSOO)

S-size 242C106 **59,100 yen** (tax incl.)  
 M-size 242C107 **75,000 yen** (tax incl.)

The inner stuffing is 100% high-quality feather. Woven tag with the Lexus mark and logo on the inside.

Material: [Cushion cover outer material] Polyester, Rayon  
 Japanese washi paper  
 [Cushion cover lining] Polyester, Silk  
 [Cushion outer material] Polyester, Silk  
 [Cushion inner stuffing] 100% feather  
 Size: [S-size] Approx. 400 mm (W) × 400 mm (H) × 220 mm (D)  
 [M-size] Approx. 500 mm (W) × 500 mm (H) × 220 mm (D)  
 Made in Japan

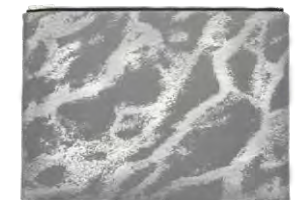

### 106. Nishijin Textile® Room Shoes (HOSOO)

Size 1 242C108 **111,800 yen** (tax incl.)

Features an interior pocket. This versatile item can be used inside a larger handbag or as a clutch. Woven tag with the Lexus mark and logo on the inside.

Material: [Outer material] Polyester, Rayon, Japanese washi paper  
 [Lining] Suede-like artificial leather  
 Size: Approx. 325 mm (W) × 240 mm (H) × 10 mm (D)  
 Made in Japan

## HOSOO

Founded in 1688 in Nishijin, Kyoto, as a weaving establishment catering to large temples. Even while carrying down traditional Nishijin Textile® skills for obi sashes and kimonos on into modern times, by adding innovative techniques and timeless design sensibilities to create unique textiles, HOSOO is advancing into the luxury market both in Japan and overseas together with also turning its expertise to the door-trim materials for the Lexus LS.

These products will be shipped 1.5 to 2 months after order receipt.

\* For products #105 to #107, because each item is handmade, the color, pattern, and texture of delivered products may differ from the photograph.  
 \* Nishijin Textile® is a registered trademark of the Nishijin Textile Industrial Association.

## Enjoy the rain as the Nurenza scatters the raindrops.

Nurenza umbrellas use an ultra-high-density polyester material that causes raindrops to roll off the umbrella without being deformed. This effect is inspired by raindrops sliding on lotus leaves. We pay particular care to the tension of the fabric so that you can enjoy the sound of rain falling on the umbrella. In addition, the handle is made of maple and genuine leather for a suppleness that resonates with the human senses. The tips and a ferrule have a wood finish that prevents damage to the car.

### 108. Umbrella "Nurenza" Carbon

242C111 **57,300 yen** (tax incl.)  
242C112 **61,700 yen** (tax incl.) Personalized Name Service

Carbon material is used for the frame and the shaft to achieve both lightweight and excellent durability. The umbrella can be opened and closed smoothly, and has a structure that does not catch your finger.

Material: [Fabric] Polyester [Handle] Wood (maple), Cowhide  
[Ribs, Stretchers, Shaft] Carbon  
Size: 550 mm/600 mm/650 mm Number of ribs: 12 ribs/16 ribs Made in Japan  
This product will be shipped 45 days after order receipt.

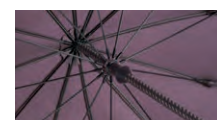

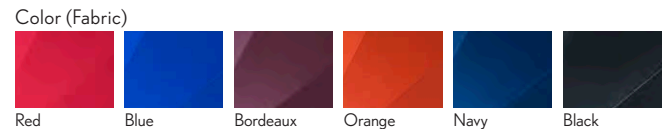

### 109. Umbrella "Nurenza"

242C113 **37,200 yen** (tax incl.)  
242C114 **41,600 yen** (tax incl.) Personalized Name Service

Material: [Fabric] Polyester [Handle] Wood (maple), Cowhide  
[Ribs, Stretchers] Carbon [Shaft] Aluminum  
Size: 550 mm/600 mm/650 mm Number of ribs: 12 ribs/16 ribs Made in Japan  
This product will be shipped 30 days after order receipt.

### Customizable items for Umbrella "Nurenza" (#108 and #109)

Shaft length: 550 mm/600 mm/650 mm Number of ribs: 12 ribs/16 ribs

### Purveyor to Daihonzan Eiheiji Temple **Fukui Yougasa**

Since its establishment in 1972, this venerable umbrella manufacturer has pursued the creation of original umbrellas while preserving traditional techniques. Fukui Yougasa pays attention to details ranging from the fabric and handle to the sound of the rain. The company believes that true manufacturing consists of responding to customer feedback and making things from the customer's viewpoint. Fukui Yougasa constantly strives to provide omotenashi (the Japanese spirit of hospitality) to its customers.

Traditional Japanese beauty that transcends time. This parasol is suitable for both sunny and rainy days, and the texture of dyed and woven fabrics is sure to bring joy.

Two unique pieces exuding traditional Japanese beauty. These ramie parasols are beautifully finished with colorful herb-based dyes. The elegant parasols feature a Marguerite-patterned design with a three-dimensional floating weave texture, creating a stained-glass-like view. In addition to UV protection treatment, the material also blocks UV rays with a cut rate of 80% or more and has waterproofing and water repellency treatment.

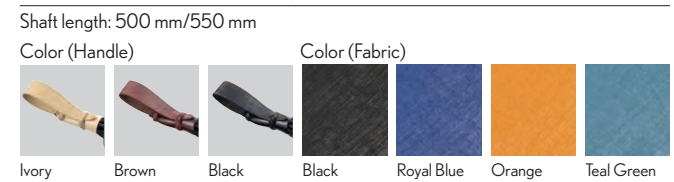

### 110. Parasol (folding umbrella for all weather) Ramie

241C011 **55,000 yen** (tax incl.)  
241C012 **59,400 yen** (tax incl.) Personalized Name Service

The exquisite colors of 'Omi Ramie,' with a history dating back to Japan's Muromachi period (1336-1573) on the east side of Lake Biwa, are meticulously dyed using pigments derived from plants and trees. The handle, crafted from a combination of maple wood and cowhide leather, ensures both comfort and functionality when gripped.

Material: [Fabric] Ramie 100% [Handle] Wood (maple), Cowhide [Ribs, Stretchers] Special resin\*1 [Shaft] Aluminum Size: 500 mm/550 mm Number of ribs: 8 ribs/12 ribs Made in Japan  
This product will be shipped 30 days after order receipt.

### Customizable items for #110

The texture of authentic ramie and the gentle hues distinctive to herb dyeing Easy-to-grasp and comfortable handle Cover equipped with a handle can also be used as an eco-friendly bag

\*1 Special resin: Highly functional polymer compound with excellent tensile strength, heat resistance, etc.  
\* The grain, color, and texture of wood for products #108 to #111 vary due to the use of natural wood for the handle, ferrule, and other parts.  
\* The patterns will differ depending on the cutting point.

### 111. Parasol (folding umbrella for all weather) Marguerite

241C013 **50,600 yen** (tax incl.)  
241C014 **55,000 yen** (tax incl.) Personalized Name Service

This gorgeous parasol has a three-dimensional floating weave with a marguerite pattern throughout the fabric, and on the inside of the umbrella, a kasumiso (baby's breath) pattern is delicately printed with paint containing Bincho charcoal powder. The handle, crafted from a combination of maple wood and cowhide leather, ensures both comfort and functionality when gripped.

Material: [Fabric] Polyester 100% [Handle] Wood (maple), Cowhide [Ribs, Stretchers] Special resin\*1 [Shaft] Aluminum Size: 500 mm/550 mm Number of ribs: 8 ribs/12 ribs Made in Japan  
This product will be shipped 30 days after order receipt.

### Customizable items for #111

Truss structure made with unique type of resin (8 ribs / 12 ribs) Functional handle design allows it to be carried on the arm Cover with the same Marguerite pattern as the umbrella body

## The joy of playing music with responsive keys.

The sound source is characterized by the clear and pleasing sound of Kawai's unique oval aluminum pipe. Craftsmen carefully tune the sound of each of the 32 keys by hand. We have pursued accurate pitch precision so that the correct pitch can be intuitively learned and enjoyed, making this piano suitable for children's first experience with the piano. Moreover, through a keyboard which is highly responsive to the touch, this authentic acoustic mini grand piano expresses the dynamism of soft and vibrant sounds in piano performances. This piano will bring joy to children and also functions as a stylish interior decoration.

### 112. Mini Grand Piano (Original Wood)

SHIMAMOKU 212C004 **52,800 yen** (tax incl.)  
 SHIMAMOKU 212C005 **56,300 yen** (tax incl.) Personalized Name Service  
 BAMBOO 212C006 **46,700 yen** (tax incl.)  
 BAMBOO 212C007 **50,200 yen** (tax incl.) Personalized Name Service

The body of the piano uses SHIMAMOKU and BAMBOO, which are materials used in the interior of Lexus vehicles. The body is specially painted by piano painters to create a deep and beautiful finish. The partitions are original specifications based on the interior of Lexus vehicles.

#### Kawai Musical Instruments Manufacturing Co., Ltd.

**KAWAI**

Under the slogan "We Touch the Heart Strings," Kawai develops, sells, tunes, and repairs pianos, operates music schools offering piano lessons, rhythm classes for children, etc., and develops health promotion businesses such as physical education classes. In addition, the company also operates businesses such as metal processing and painting, and uses advanced coating technologies to manufacture wood panels for Lexus vehicle interiors.

Brilliant crystal and soothing sound.

A fusion of advanced technology and craftsmanship. Our music box gives live performances of 1,172 songs in the healing tone of 528 Hz.

Primotone Crystal is an electronic music box that plays live performances by using fine pins to pluck comb teeth in accordance with specially created musical composition data. The music box was born from the advanced motor technology and electronic control technology of Brother Industries, and from the extensive know-how in musical composition of XING Inc. Musical composition data for 1,172 songs are recorded on three special SD cards. Powered by an AC adaptor, the music box can perform a symphony lasting more than 30 minutes. The comb teeth are the heart of the music box. Each tooth is carefully polished by skilled craftsmen and tuned to play 528 Hz, a frequency attracting attention as a healing tone. Furthermore, the case combines highly transparent acrylic and a half mirror. This design allows the case to change its expression due to the reflection of light, emitting a beautiful crystal-like shine. From materials to assembly, all facets of the music box are finished by the hands of premier craftsmen.

Full-chorus live performances of 1,172 songs in a variety of genres ranging from classic to pop music

\*Some songs were recorded as excerpts of a portion of musical composition.

Through expert craftsmanship, comb teeth are specially tuned to play at the relaxing tone of 528 Hz

Unlike conventional music boxes, it is possible to adjust the volume and tempo

Sound played by the comb teeth resonate within the box, creating a beautiful tone resembling a live performance

\* Due to the manufacturing method of the half mirror, black spots or uneven reflections may be seen depending on the viewing angle and surrounding environment.  
\* The case may become cloudy depending on some indoor environments. When placed near a humidifier, tap water components, preservative components, etc., may adhere to the case, causing it to become white and cloudy.  
\* If you wish to use the music box for commercial use, you must sign a contract with the Japanese Society for Rights of Authors, Composers and Publishers (JASRAC) and pay for performance rights.

#### 115. Music Box Primotone (Primotone Crystal Model)

192C001 **2,200,000 yen** (tax incl.)

Size: 306 mm (W) × 145 mm (H) × 217 mm (D) Weight: 5.9 kg  
Accessories: AC adaptor, 1 Power cord, 3 SD cards  
Made in Japan

This product will be shipped 2 months after order receipt.

#### Brother Industries, Ltd.

Manufacturer specializing in printers, fax machines, sewing machines, etc. Possesses a top global share in both home and industrial sewing machines.

#### XING Inc.

A group company of Brother Industries. Operates JOYSOUND on-demand karaoke for commercial use.

Be at ease and be your true self.

Premium sound enveloped by silence. Mark Levinson wireless headphones that have continued to challenge the realm of high-end audio.

These headphones feature expertly designed sound and advanced noise cancellation achieved through decades of research. A distinctive element of the brand is ear cups which are designed in the motif of volume knobs from sound equipment such as amplifiers. The head band and ear cushions are made from luxurious sheepskin leather which realizes both a comfortable fit and an appropriate seal. From sound quality to the actual product, these headphones overflow with the passion and attention to detail of Mark Levinson.

#### Unparalleled sound performance

The headphones use a newly-designed 40 mm diameter driver with beryllium coating for superior audio properties. This is combined with the high-definition Bluetooth wireless connection so that listeners can enjoy sound with high purity and utmost refinement.

#### Blocks surrounding noise

Surrounding noise is effectively reduced by Adaptive Active Noise Cancelling technology with three modes that can be selected according to the situation. Even in noisy environments such as on a plane or train, enjoy being surrounded by silence so that you can savor the nuances and subtleties of your favorite music.

#### Clear sound on telephone calls

Users can receive incoming telephone calls while listening to music on their smartphone. Clear sound on telephone calls is achieved by four beamforming microphones that reduce surrounding noise such as wind noise.

#### Converse smoothly while listening to music

If someone talks to you while you are listening to music, you can use the Ambient Aware which allows the microphone to pick up surrounding voices. This enables you to converse smoothly even while wearing the headphones.

\* There are individual differences such as some wrinkling or small imperfections due to using natural sheepskin leather.  
\* Water leakage, perspiration, or friction may result in colors being transferred to clothing or the like.

#### 116. Headphone (Mark Levinson)

222C001 **149,600 yen** (tax incl.)

#### Mark Levinson

Founded in 1972, Mark Levinson established a new genre of high-fidelity audio based on the sound concept of designing stereo components that recreate the sound of music exactly as heard in the studio. For more than 50 years since then, the company's unwavering passion has always raised the level of audio, and each product is fully equipped with technology that faithfully reproduces the artists' performances. The company also develops car audio systems for Lexus vehicles, and optimal sound systems for each model are available as a manufacturer option.

\*Mark Levinson is a trademark of Harman International Industries, Incorporated.

A casual design exuding a sense of quality is featured, with meticulous care taken in the structure to ensure ease of use.

145

146

**145. Golf Ball Titleist Pro V1 (1 dozen)**

232C034 **1 dozen (3 pieces × 4) 9,500 yen** (tax incl.)

A total performance golf ball that combines speed, spin, and feel at a high level. The newly developed high-gradient core and high-flex elastic case layer improve the ball's initial velocity and reduce the amount of spin in long games. Made in Thailand

**146. Golf Ball SRIXON Z-STAR XV**

231C070 **1 dozen (3 pieces × 4) 8,600 yen** (tax incl.)  
231C071 **Half dozen (2 pieces × 3) 4,280 yen** (tax incl.)

Uses a newly-developed core for optimized two-stage hardness distribution. This further enhances the advantage of flight distance performance and also improves feel on impact. Made in Japan

\*1 CLEANSE®: This is original treatment technology from Kurabo Industries which is used to strongly immobilizing onto the surface of fabrics the antibacterial and antiviral agent Etak®, which can be fixed onto a variety of surfaces. It has been confirmed to reduce the numbers of certain viruses on the fibers by 99%. It also inhibits the propagation of certain bacteria. The treatment also achieves excellent launderability, with confirmation for the numbers of certain viruses on the fibers being reduced by 99% or higher after 50 household washing cycles.

\*2 μ-func.®: This is thread of pure silver processed with polyester film to eliminate tarnishing due to sulfurization, oxidation, or salification. Ions from silver exposed by cross-sectioning are released, producing extremely high sustained antibacterial, deodorizing, and antistatic effectiveness.

\* For products #139 to #141, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

Enjoy sports in comfort with cozy, performance-driven wear.

\*1 Cardboard material: A circular knit (jersey) material made by layering the outer and lining fabrics and connecting them with a middle thread. This material is characterized by its high heat retention and lightweight characteristics.

\*2 Easy Warm: By absorbing the heat energy released from the natural environment and the body of the wearer, this material retains warmth for a long time.

\*3 Rampant Lion: One of the lion emblems symbolizing the nation of England.

\*4 HOT RAY®: Yarn made from Dynahot® (developed by Toray), an acrylic material in which a special ceramic that emits far infrared rays is kneaded directly into fibers.

\*1 FEDE®: A composite material made from ultra-fine acrylic fiber that uses special technology to resist pilling and Super Elequil fiber which suppresses the generation of static electricity.

\*2 Rampant Lion: One of the lion emblems symbolizing the nation of England.

\*3 HOT RAY®: Yarn made from Dynahot® (developed by Toray), an acrylic material in which a special ceramic that emits far infrared rays is kneaded directly into fibers.

\*4 Ray Block®: A knitted shirt fabric with UV blocking properties. The fabric is made by adding special ceramics to full dull highly crimped multi-polyester fibers. Ray Block® achieves UPF50+, the highest standard among the three levels of global UPF standards for the UV protection index.

## Sports necklaces and belts that support your best performance.

This SEV creates a sense of relaxation and comfort by utilizing characteristics from combination of natural ore and more than 20 kinds of metals. Wearing the SEV looper, which encompasses the entire neck, can enhance your health in a variety of situations including daily activities, driving, business engagements and sports. This high-performance model has 150% more of the main ingredient than normal commercially-available SEV loopers.

### 161. SEV Looper (Triple Type) (High-performance Model)

54 cm Looper 232C080 **60,900 yen** (tax incl.)  
48 cm Looper 232C081 **58,700 yen** (tax incl.)

This model realizes even greater comfort by combining three loops of the SEV Looper High Performance Model designed exclusively for Lexus. The result is a sports necklace for reliable support during sports such as golf.

Material: [Metal Section] Aluminum alloy [Loop Section] Silicon, Elastomer  
Size: [54 cm Loope] 540 mm [48 cm Loope] 480 mm Made in Japan

For products #161 and #162, the Lexus mark and logo are laser engraved on the attachment section.

\* Please note that the looper may become discolored or damaged if worn in a bath, hot spring, pool, seawater, etc.

### 162. SEV Looper (High-performance Model)

54 cm Looper 212C008 **40,700 yen** (tax incl.)  
48 cm Looper 212C009 **38,900 yen** (tax incl.)

The simple and stylish design coordinates easily with sportswear and various other types of fashion.

Material: [Metal Section] Aluminum alloy [Loop Section] Silicon, Elastomer  
Size: [54 cm Loope] 540 mm [48 cm Loope] 480 mm Made in Japan

### 163. SEV Leather Belt (High-performance Model)

232C082 **36,000 yen** (tax incl.)

This high-performance model was designed exclusively for Lexus. It is a leather belt with 200% more of the main ingredient than the regular SEV leather belt. The belt provides support for your entire waist and is recommended not only for business but also for sports such as golf.

Material: Cowhide (Hybrid Leather), Brass  
Size: 1,100 mm (L) × 35 mm (W) (can be adjusted by cutting) Made in Japan

\* Please note that natural materials are used, and that markings and uneven color are natural characteristics of leather. The color may fade or change due to moisture, oil, chemicals, sunlight, etc. Due to the characteristics of leather, water leakage, perspiration, or friction may result in colors being transferred to clothing or the like.

### 167. Key Ring (Shoehorn/Shrunken finish)

Orange 242C097 **7,400 yen** (tax incl.)  
Gray 242C098  
Dark Green 242C099  
Black 242C100

This key ring with shoe horn is designed by combining eco-friendly Italian LWG\*1 certified leather embossed with a shrunken finish and Ultrasuede® HP\*3, a sustainable suede-like artificial leather. The colors are coordinated in combinations of gray and turquoise blue, orange and cream, dark green and navy, and black and gray. The shoe horn has a hairline finish that creates a matte texture. The key ring is a hook type which makes it easy to attach keys without straining your fingernails. The Lexus mark and logo are embossed on the back.

Material: Cowhide, Zinc alloy, Suede-like artificial leather (Ultrasuede®)  
Size: 46 mm (W) × 138 mm (H) (including hook) Made in Japan

\*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

\*2 Ultrasuede® ST (Standard): Sustainable suede-like synthetic leather made of 30% plant-derived polyester. Ultrasuede® is a registered trademark of Toray Industries, Inc.

\*3 Ultrasuede® HP (High Performance): A sustainable suede-like artificial leather made from recycled polyester resin recovered from industrial film waste. Ultrasuede® is a registered trademark of Toray Industries, Inc.

\* For products #165 to #167, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Due to the characteristics of leather, the color and texture of delivered products may differ from the photographs.  
\* Because it is a natural material, there are individual differences in the strain, wrinkles, and color shading characteristics of the leather.

LWG certification is given only to tanners who comply with strict international standards.

\*2 Hybrid Leather: Made by laminating an ultra-thin carbon pattern film onto cowhide, this leather possesses superior resistance to wear, light, heat, and water.

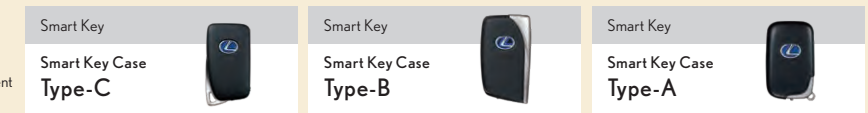

\*3 Water dyeing: A dyeing method in which leather is soaked for a long time in a vat containing dye. Preserves the texture which is inherent to leather. The techniques of craftsmen are needed in order to create expressive shades of color.

\*4 Anodized: A surface processing method that anodizes aluminum to form an artificial oxide film, thus improving resistance to corrosion and wear.

\* For products #177 to #181 and #183 to #185, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Due to the characteristics of leather, the color and texture of delivered products may differ from the photographs.

To enable operation while the key is inside the smart key case, the back of the case indicates the position of the buttons.

Compatibility of smart key cases  
 We offer smart key cases for different types of smart keys.

# A highly distinctive card key holder.

Select your favorite color, design, and leather texture.

These have a back pocket for holding cards and other items and are embossed with the Lexus mark and logo.

## 187. Card Key Holder (FEEL NATURE)

Snow White 241C111 **9,100 yen** (tax incl.)  
 Sand Camel 241C112  
 Forest Green 241C113

Designed with an inspiration drawn from nature such as snowy paths, deserts, and mountain trails. The main body is made of eco-friendly LWG\*1 certified leather.

Material: Cowhide, Nylon, Resin Size: 68 mm (W) × 98 mm (H) × 6 mm (D) Made in Japan

## 188. Card Key Holder (Deerskin)

Black 241C114 **9,900 yen** (tax incl.)

Each smart key case is individually handcrafted using upcycled Ezo deerskin, which is light, soft and plush to the touch.

Material: Ezo Deerskin, Nylon, Resin Size: 68 mm (W) × 98 mm (H) × 6 mm (D) Made in Japan

## 189. Card Key Holder (Antipasto Skin)

Black 232C093 **8,500 yen** (tax incl.)  
 Burgundy 232C092  
 Blue 232C091

Made from eco-friendly Italian LWG\*1 certified leather.

Material: Cowhide, Rayon, Resin  
 Size: 69 mm (W) × 97 mm (H) × 4 mm (D) Made in Japan

## 190. Card Key Holder (Calfskin leather with crocodile textured pattern)

Bordeaux 172C054 **10,800 yen** (tax incl.)  
 Black 172C053

Fine, soft, and beautiful calfskin leather embossed with a crocodile textured pattern.

Material: Cowhide, Nylon, Resin  
 Size: 68 mm (W) × 98 mm (H) × 6 mm (D) Made in Japan

\* The expression created by the crocodile textured pattern differs depending on the part of leather.

## 191. Card Key Holder (Spindle pattern II) ◆ Antibacterial

White 222C059 **8,800 yen** (tax incl.)  
 Red 222C060  
 Black 222C061

Genuine leather tanned in Japan is treated with antibacterial properties and designed in the motif of a spindle pattern.

Material: Cowhide, Rayon, Resin Size: 69 mm (W) × 100 mm (H) × 6 mm (D) Made in Japan

## 192. Card Key Holder (Calfskin leather)

Blue 212C058 **8,500 yen** (tax incl.)  
 Taupe 212C059  
 Black 212C060

High-quality French calfskin, which is also used in famous fashion brands, is embossed with a crimped pattern.

Material: Cowhide, Rayon, Resin Size: 69 mm (W) × 97 mm (H) × 4 mm (D) Made in Japan

## 193. Card Key Holder (Intrecciato texture)

Navy 171C055 **10,200 yen** (tax incl.)  
 Black 171C054

Embossed to create the appearance of woven intrecciato.

Material: Cowhide, Nylon, Resin  
 Size: 68 mm (W) × 98 mm (H) × 6 mm (D) Made in Japan

## 194. Card Key Holder (Hybrid Leather)

Black 202C044 **8,000 yen** (tax incl.)

Made from Italian hybrid leather\*2 which is also used for automobile steering wheels.

Material: Cowhide (Carbon pattern finishing), Rayon, Resin  
 Size: 69 mm (W) × 97 mm (H) × 4 mm (D) Made in Japan

## 195. Card Key Holder (Vintage Style)

Dark Brown 222C005 **9,000 yen** (tax incl.)

The back of the holder has a pocket for holding cards.

Material: Cowhide, Nylon  
 Size: 68 mm (W) × 98 mm (H) × 6 mm (D) Made in Japan

\*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

\*2 Hybrid Leather: Made by laminating an ultra-thin carbon pattern film onto cowhide, this leather possesses superior resistance to wear, light, heat, and water.

\* For products #187 to #195, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Due to the characteristics of leather, the color and texture of delivered products may differ from the photographs.

\* Because it is a natural material, there are individual differences in the strain, wrinkles, and color shading characteristics of the leather.

Product #191  
 Antibacterial treatment: Treatment that inhibits bacterial growth.  
 \* Not guaranteed effective against all types of bacteria.

## Key rings in a wide variety of designs.

A wide lineup of traditional patterns, carefully selected materials, and beautiful colors.

NEW

### 196. Key Ring (Inden/Round)

Black x White 242C103 **8,300 yen** (tax incl.)  
 Black x Red 242C104  
 Grayish Pink x White 242C105

A round key ring made from cowhide leather, featuring a spindle pattern crafted using the Inden technique. The Lexus mark and logo are embossed on the back.

Material: Deerskin, Lacquer, Cowhide, Iron  
 Size: Approx. 50 mm (W) x 90 mm (H) x 5 mm (D) (including hook)  
 Made in Japan

### 198. Key Ring (Loop/crocodile texture)

Royal Blue 181C025 **6,800 yen** (tax incl.)  
 Black 181C026

Environmentally-friendly Italian vegetable tanned leather is embossed with a crocodile texture. The Lexus mark and logo are embossed on the inside of the loop.

Material: Cowhide, Zinc alloy, Stainless steel  
 Size: 30 mm (W) x 137 mm (H) (including hook) Made in Japan

\* The expression created by the crocodile texture differs depending on the part of leather.

### 197. Key Ring (Inden)

White 201C070 **7,400 yen** (tax incl.)  
 Black 201C071

A loop-style key ring made from cowhide leather and the spindle pattern Inden. The Lexus mark and logo are embossed on the inside of the loop.

Material: Deerskin, Lacquer, Cowhide, Zinc alloy  
 Size: 36 mm (W) x 155 mm (H) (including hook) Made in Japan

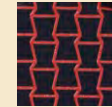

### 199. Key Ring (Italian leather)

Navy 222C062 **7,800 yen** (tax incl.)  
 Black 222C063

Uses eco-friendly vegetable tanned Italian leather. Features a transparent luster.

Material: Cowhide, Zinc alloy  
 Size: 20 mm (W) x 150 mm (H) (including hook) Made in Japan

### What is Inden?

Inden is a traditional technique with a history spanning over 400 years. It involves dyeing deerskin and applying patterns using lacquer. This method combines meticulously chosen, high-quality deerskin with lacquer that deepens in color and sheen over time, creating a distinctive beauty and texture.

### 200. Key Ring (Calfskin leather)

Blue 212C077 **7,800 yen** (tax incl.)  
 Taupe 212C078  
 Black 212C079

High-quality French calfskin, which is also used in famous fashion brands, is embossed with a crimped pattern.

Material: Cowhide, Zinc alloy, Resin  
 Size: 30 mm (W) x 175 mm (H) (including hook) Made in Japan

### 201. Key Ring (Car Motif)

Black 241C115 **9,100 yen** (tax incl.)  
 Red 241C116  
 Turquoise Blue 241C117  
 Taupe 241C118

Environmentally-friendly LWG\*1 certified leather is used. The hook-shaped ring is designed to be easy to clip without hurting your fingernails.

Material: Cowhide, Zinc alloy Size: 60 mm (W) x 120 mm (H) x 16 mm (D) (including hook)  
 Made in Japan

### 203. Key Ring (Intrecciato) II

Burgundy 212C074 **7,250 yen** (tax incl.)  
 Green 212C075  
 Black 212C076

Genuine leather tanned in Japan is treated for antibacterial performance and embossed with a crimped pattern. Each key ring is carefully woven by hand. Uses hooking rings for easy attachment of keys.

Material: Cowhide, Zinc alloy  
 Size: 25 mm (W) x 155 mm (H) (including hook) Made in Japan

### 204. Key Ring (Natural Shrink)

Pink 231C056 **7,800 yen** (tax incl.)  
 Taupe 231C057  
 Black 231C058

Environmentally-friendly LWG\*1 certified leather undergoes natural shrink processing\*3, which creates natural crimping and an elegant, soft texture. The leather also undergoes antibacterial and antiviral processing. Includes one hook-shaped ring that can be unclipped with a single touch, as well as three fixed small rings.

Material: Cowhide, Zinc alloy  
 Size: 30 mm (W) x 145 mm (H) (including hook) Made in Japan

### 202. Key Ring (Tassel Ultrasuede®)

Ivory 231C053 **8,300 yen** (tax incl.)  
 Light Pink 231C054  
 Turquoise Blue 231C055

The tassel and tag part use Ultrasuede® HP\*2, a sustainable suede-like artificial leather made from recycled polyester resin. The head parts are designed in the motif of a spindle pattern. The hook-shaped ring is designed to be easy to clip without hurting your fingernails.

Material: Suede-like artificial leather (Ultrasuede®), Zinc alloy  
 Size: 25 mm (W) x 160 mm (H) x 25 mm (D) (including hook) Made in Japan

### 205. Key Ring (Studs/Vintage Style)

Dark Brown 222C013 **7,400 yen** (tax incl.)

The embedded studs give this key ring a unique look. Uses hooking rings for easy attachment of keys.

Material: Cowhide, Zinc alloy  
 Size: 25 mm (W) x 160 mm (H) (including hook) Made in Japan

\*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

\*2 Ultrasuede® HP (High Performance): A sustainable suede-like artificial leather made from recycled polyester resin recovered from industrial film waste. Ultrasuede® is a registered trademark of Toray Industries, Inc.

\*3 Natural shrink processing: A processing method that uses special chemicals to shrink the leather surface, thereby creating unique wrinkles and crimping texture.

Products #203 and #204  
 Antibacterial treatment: Treatment that inhibits bacterial growth.  
 \* Not guaranteed effective against all types of bacteria.  
 Product #204  
 Antiviral treatment: This is treatment that reduces the numbers of specific viruses in the fibers.  
 \* Not guaranteed effective against all viruses.  
 \* The antiviral treatment is not for the purpose of disease prevention or medical treatment.

\* For products #196 to #205, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Due to the characteristics of leather, the color and texture of delivered products may differ from the photographs.

\* The products shown in this catalog may appear different from the color of actual products due to photographing, printing ink, and screen display setting. \* Product specifications are subject to change without notice.  
 \* Prices are the manufacturer's suggested retail prices (as of August 2024). \* We have prepared sufficient quantities of the products; however, we ask for your understanding if your desired product is out of stock.
