Recovery wear that enhances blood flow and alleviates fatigue simply by wearing.

Color worn by model: Navy

VITALTECH® circulation promoting fiber

Garments infused with eight natural minerals and treated with a special process to promote circulation by absorbing far-infrared rays emitted by the body and redirecting them back to the skin. Improved circulation helps alleviate fatigue and relieve stiffness in the shoulders and lower back, as well as reducing muscle fatigue. The functionality remains effective even after repeated washing. VITALTECH® is a registered trademark of MTG Co., Ltd.

ReD

A recovery wear brand designed for around-the-clock support in promoting circulation for more energy in everyday life. VITALTECH® empowers you to live a VITALLIFE, which is a healthy, radiant and active life.

Features an elegantly simple design for versatile coordination.

# TAKUMIKOBO

Each item is meticulously handcrafted with an unwavering commitment to detail, ensuring that the artisans' skills and mindset are deeply embedded in every piece. This one-of-a-kind item serves as a bridge between the hearts of the owner and the craftspeople.

## Craftsmanship by TAKUMI KOBO

Lexus vehicles are created by master artisans from many disciplines. Among them, a workshop of expert sheet metal craftspeople transforms the visions of designers into reality and craft the initial prototype vehicles.

Just as in 1935, when Toyota produced its first Toyota A1, these artisans skillfully shape flat steel sheets through precise strikes with specialized hammers. Next, they use expert welding techniques to create the final structure. This preserves the traditional techniques of Toyota's sheet metal craftsmanship. We call this group of sheet metal craftspeople "TAKUMI KOBO," and we are committed to advancing their craft. Now, TAKUMI KOBO is making a unique contribution to the Lexus Collection, enabling our customers to directly enjoy the same exceptional skills once reserved for prototype production.

LEXUS NEWS:  
Techniques of TAKUMI KOBO workshop support artisanry

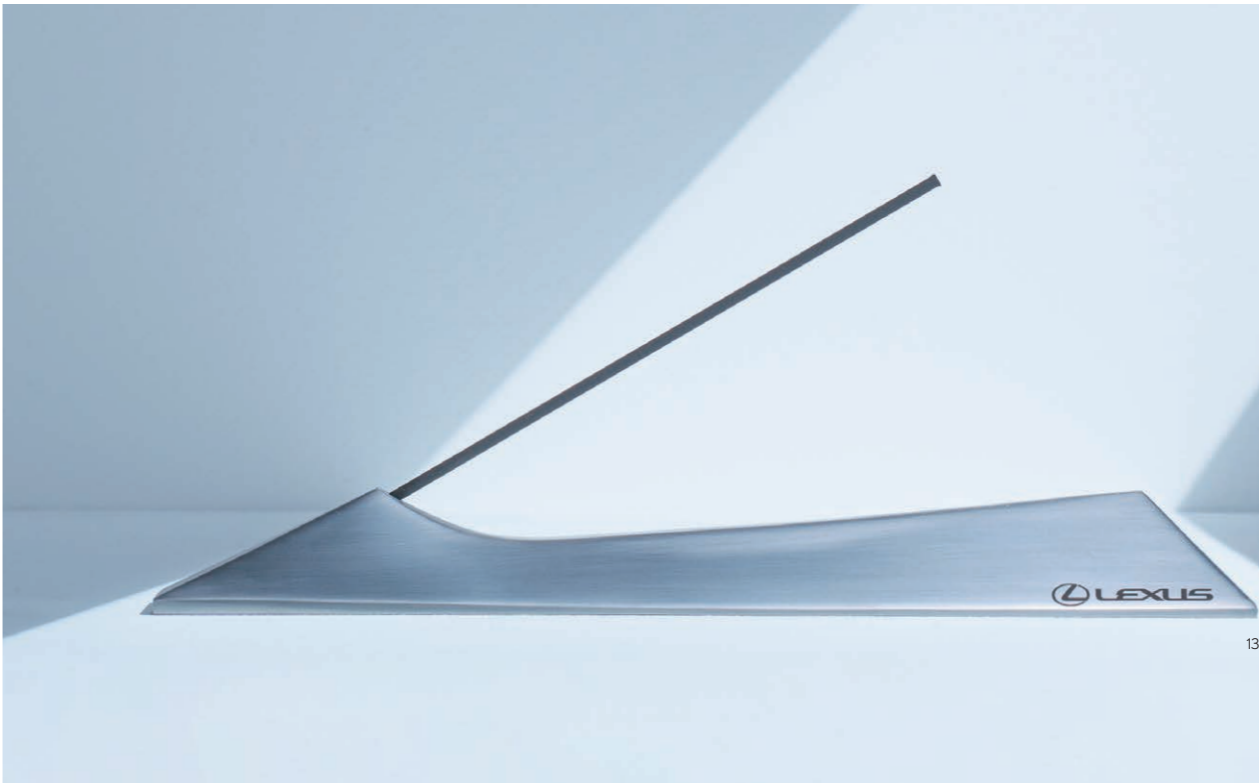

Refined fragrances drift upward from designs reminiscent of your favorite vehicle.

TAKUMI KOBO

New designs created by TAKUMI KOBO through masterful hammering and welding techniques honed in the development of Lexus prototypes.

Enjoy a moment of calm and elegance enveloped in your favorite fragrance, and feel a nuanced connection to Lexus even when you are away from your beloved car.

**NEW**  
12. TAKUMI Car Craftspeople  
Aroma Diffuser

SAN -Incense type  
Limited to 30 units

Fragrant smoke wafts gracefully from a shape formed from a single sheet of metal. Savor the passing of time as reflected light and shadow dance across the surface of this exceptional piece.

252C052 **121,000 yen** (tax incl.)  
Material: [Body] Stainless steel [Pedestal] Walnut  
Size: [Body] 105 mm (W) × 180 mm (H) × 92 mm (D)  
Made in Japan

The products #12 to #14 will be shipped 3 to 6 months after order receipt.

A supreme masterpiece, meticulously created by TAKUMI craftspeople who truly appreciate your love for your vehicle.

TAKUMIKOBO

Each cap cover is carefully handcrafted to order by the skilled sheet metal artisans who build Lexus vehicles. Carefully crafted with attention to detail, this exquisite work sparkles uniquely each time you open the fuel door.

#### 15. Fuel Cap Cover by TAKUMI Car Craftspeople

**NEW**  
NAMI

Designed in the motif of sound experienced when driving a Lexus. The mingling waves of sound from the engine and muffler are artistically represented through precise hammering.

252C055 **40,700 yen** (tax incl.)  
252C056 **45,400 yen** (tax incl.) Personalized Name Service

Material: [Body] Stainless steel [Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive  
Stainless steel size: 67mm (DIA) × 21mm (H) Made in Japan

The "Takumi Enrei" series utilizes welding techniques to join metals and is distinguished by its lustrous shine and deep, rich colors that enhance the natural characteristics of the materials.

#### TAKUMI ENREI HIREI -KON

A shape reminiscent of natural minerals is powerfully brought to life through masterful sheet metal craftsmanship. The newly created pre-dawn purple Hirei, achieved through a meticulous baking process, radiates a shimmering, jewel-like brilliance.

251C005 **70,000 yen** (tax incl.)

#### TAKUMI ENREI HIAI -KON

A powerful expression of vigorously rippling water, brought to life through masterful sheet metal craftsmanship. This exquisite piece blends a refreshing aesthetic with the deep hues of Hiai.

251C004 **70,000 yen** (tax incl.)

Material: [Body] Stainless steel [Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive  
Stainless steel size: 67mm (DIA) × 22.5mm (H) Made in Japan

#### TAKUMI ENREI HIAI -TAN

The process of shaping and refining the metal is expressed in a radial pattern. The crimson blue color further enhances the delicate design.

242C003 **60,000 yen** (tax incl.)  
242C004 **63,000 yen** (tax incl.) Personalized Name Service

#### Spindle Luster -YOI

Carefully polished to achieve a stunning shine and luster, the delicate pattern evokes the beauty of stars and moonlight, creating an impression of luxury.

241C003 **80,300 yen** (tax incl.)  
241C005 **83,300 yen** (tax incl.) Personalized Name Service

#### Spindle Premium Matte -HAKUJITSU

The matte texture exudes a sense of quality. While highlighting the smoothness of the metal, it evokes the image of translucent white sunlight and the radiance of the sun.

241C004 **80,300 yen** (tax incl.)  
241C006 **83,300 yen** (tax incl.) Personalized Name Service

#### PLAIN

Enhance the smoothness of stainless steel.

232C002 **31,300 yen** (tax incl.)  
241C007 **34,300 yen** (tax incl.) Personalized Name Service

#### LAND

Boldly express the natural terrain.

232C004 **37,500 yen** (tax incl.)  
241C009 **40,500 yen** (tax incl.) Personalized Name Service

#### MOKU

Express the complex figure of wooden material.

232C005 **42,900 yen** (tax incl.)  
241C010 **45,900 yen** (tax incl.) Personalized Name Service

Material: [Body] Stainless steel [Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive  
Stainless steel size: 67mm (DIA) × 21mm (H) Made in Japan  
\*For gasoline vehicles only.

The products shown on pages 16 and 17 will be shipped 3 to 4 months after order receipt.

Personalized Name Service For information on ordering personalized name engraving, please refer to page 66.

A gorgeous and functional umbrella that shines with exquisite fabric and handle craftsmanship.

16 Umbrella "Nurenza" Carbon Red

19 Parasol (folding umbrella for all weather) Marguerite Black

18 Parasol (folding umbrella for all weather) Ramie Orange

Nurenza

Made from an ultra-high-density polyester material that causes raindrops to bead and roll off the umbrella without being deformed. We pay particular care to the tension of the fabric so that you can enjoy the sound of rain falling on the umbrella. In addition, the handle is crafted from maple and genuine leather, offering a soft, comfortable feel.

Brilliant crystal and soothing sound.

Primotone Crystal is an electronic music box that plays live performances by using fine pins to pluck comb teeth in accordance with specially created musical composition data. The music box was born from the advanced motor technology and electronic control technology of Brother Industries, and from the extensive know-how in musical composition of XING Inc. Powered by an AC adaptor, the music box can perform a symphony lasting more than 30 minutes. Furthermore, the case combines highly transparent acrylic and a half mirror. This design allows the case to change its expression due to the reflection of light, emitting a beautiful crystal-like shine.

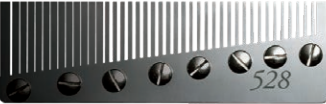

**A refined fusion of advanced technology and craftsmanship**

Full-chorus live performances of 1,172 songs in a variety of genres ranging from classic to pop music.  
\*Some songs were recorded as excerpts of a portion of musical composition.

Unlike conventional music boxes, it is possible to adjust the volume and tempo.

Through expert craftsmanship, comb teeth are specially tuned to play at the relaxing tone of 528 Hz.

Sound resonates within the box, producing a beautiful tone reminiscent of a live performance.

**20. Music Box Primotone (Primotone Crystal Model)**

192C001 **2,200,000 yen** (tax incl.)

Enjoy music all day long with up to 34 hours of continuous playback. (Up to about 30 hours when using noise canceling) The dedicated app allows you to adjust sound quality and change various settings from your smartphone. (iOS / Android)

Delivery: Approx. 1 month after order receipt

Founded in 1972, Mark Levinson established a new genre of high-fidelity audio based on the sound concept of designing stereo components that recreate the sound of music exactly as heard in the studio. For more than 50 years since then, the company's unwavering passion has always raised the level of audio, and each product is fully equipped with technology that faithfully reproduces the artists' performances. The company also develops car audio systems for Lexus vehicles, and optimal sound systems for each model are available as a manufacturer option.

\*Mark Levinson is a trademark of Harman International Industries, Incorporated.

These headphones feature expertly designed sound and advanced noise cancellation achieved through decades of research. A distinctive element of the brand is ear cups which are designed in the motif of volume knobs from sound equipment such as amplifiers. The head band and ear cushions are made from luxurious sheepskin leather which realizes both a comfortable fit and an appropriate seal. From sound quality to the actual product, these headphones overflow with the passion and attention to detail of Mark Levinson.

**Unparalleled sound performance**

The headphones use a newly-designed 40 mm diameter driver with beryllium coating for superior audio properties. This is combined with the high-definition Bluetooth wireless connection so that listeners can enjoy sound with high purity and utmost refinement.

**Blocks surrounding noise**

Surrounding noise is effectively reduced by Adaptive Active Noise Cancelling technology. Even in noisy environments such as on a plane or train, enjoy being surrounded by silence so that you can savor the nuances and subtleties of your favorite music.

**Clear sound on telephone calls**

Users can receive incoming telephone calls while listening to music on their smartphone. Clear sound on telephone calls is achieved by four beamforming microphones that reduce surrounding noise such as wind noise.

**Converse smoothly while listening to music**

If someone talks to you while you are listening to music, you can use the Ambient Aware which allows the microphone to pick up surrounding voices. This enables you to converse smoothly even while wearing the headphones.

The joy of playing music with responsive keys.

Using the same premium wood as in the interior of Lexus vehicles, each piano is carefully handcrafted by skilled craftspeople. KAWAI's unique oval aluminium pipes produce a clear and pleasant sound, precisely tuned by hand by master craftspeople, making this an ideal first piano for children.

Made in Japan (Imabari)			

Hydro-Silver Titanium® born out of the ideas of doctors.

Hydro-Silver Titanium® (Hyl[AgTiO2]) is a unique clean technology developed by D.R.C Medical Medicine Co., Ltd. The technology breaks down proteins into components such as water, carbon dioxide, and nitrogen, enabling fibers to absorb and break down proteins such as pollen, odor and house dust, as well as proteins contained in sweat and unsanitary proteins. Therefore, the towels can be continually used comfortably while suppressing odors.

\* Depending on the type and amount of protein, some proteins cannot be broken down. The performance of the towels will vary depending on the usage environment.

\* Please do not use if you are allergic to silver or titanium.

DRC Medicine

DRC Medicine Ltd. is a drug discovery company that uses its unique Hydro-Silver Titanium® technology for protein decomposition, and specializes in the development of therapeutic drugs for infectious diseases and allergies. Physicians specializing in various fields cooperate in development.

Gentle, comfortable, and high-quality items for your precious children.

Gray 241C105 **11,550 yen** (tax incl.)  
White 241C103  
Black 241C104

A sliding buckle makes it easy to use and allows precise adjustment. Fits waist sizes up to 100 cm (can be adjusted by cutting).

Material: [Body] Synthetic leather, Polyester, Zinc alloy Size: 1,100 mm (L) × 35 mm (W) Made in China

120. SEV Looper (High-performance Model)

54 cm Looper 212C008 **40,700 yen** (tax incl.)  
48 cm Looper 212C009 **38,900 yen** (tax incl.)

Material: [Metal Section] Aluminum alloy [Loop Section] Silicon, Elastomer  
Size: [54 cm Loope] 540 mm [48 cm Loope] 480 mm Made in Japan

121. SEV Looper (Triple Type) (High-performance Model)

54 cm Looper 232C080 **60,900 yen** (tax incl.)  
48 cm Looper 232C081 **58,700 yen** (tax incl.)

This model realizes even greater comfort by combining three loops of the SEV Looper High Performance Model designed exclusively for Lexus. The result is a sports necklace for reliable support during sports such as golf.

Material: [Metal Section] Aluminum alloy [Loop Section] Silicon, Elastomer  
Size: [54 cm Loope] 540 mm [48 cm Loope] 480 mm Made in Japan

\* Please note that the looper may become discolored or damaged if worn in a bath, hot spring, pool, seawater, etc.

Features of the SEV Looper

This SEV creates a sense of relaxation and comfort by utilizing characteristics from combination of natural ore and more than 20 kinds of metals. Wearing the SEV Looper, which encompasses the entire neck, can enhance your health in a variety of situations including daily activities, driving, business engagements and sports. This high-performance model has 150% more of the main ingredient than normal commercially-available SEV loopers.

WFN Co., Ltd.

In 1978, WFN developed the SEV technology to elicit the inherent performance of substances. The company has obtained a patent and is developing various products which incorporate SEV.

122. LEXUS\*Admiral Cap

Black 241C101 **6,160 yen** (tax incl.)  
Beige 241C102

The material is moisture-absorbent, quick-drying, and water-repellent.

Material: [Body] Polyester 100% Size: One size fits all (56-59 cm) Made in China

123. LEXUS\*Admiral Golf Umbrella (Summer Shield®)

Navy 251C044 **23,100 yen** (tax incl.)

The canopy is made of Summer Shield®\*12, a material that offers superior heat and light-blocking, UV protection, and water repellency.

Material: [Fabric] Surface: Polyester Back: Polyurethane (Summer Shield®\*12) [Ribs, Stretchers] Carbon [Shaft] Aluminum [Handle] Polyurethane [Umbrella bag] Polyester  
Size: [Body] 880 mm (W) × 1,220 mm (DIA) [Ribs] 700 mm Weight: Approx. 436g Made in China

124. Umbrella Bottle

White 241C152 **4,880 yen** (tax incl.)  
Black 241C153

The structure with two-layered vacuum insulation keeps contents both hot and cold for long periods of time.

Material: Stainless steel, Polypropylene, Silicone rubber Size: 50 mm (DIA) × 230 mm (H) (Capacity 300 ml)  
Weight: Approx. 240 g Made in China

\* Cannot be used in microwaves, dishwashers, or dish dryers.

Carry your car keys in sophisticated style.

**NEW**  
**125. Smart Key Case (Kip leather) Type-LM**

Type-LM Black 252C071 **11,000 yen** (tax incl.)  
Brown 252C072

This smart key case is crafted from kip leather\*13 that perfectly balances suppleness and strength. The case features a lustrous embossed texture reminiscent of flowing water. The inside of the case uses Ultrasuede® HP\*7, which is made from recycled polyester resin.

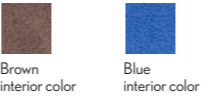

Material: Cowhide (Kip leather\*13), Suede-like artificial leather (Ultrasuede®HP\*7) (Inside)  
Size: 45 mm (W) × 80 mm (H) × 20 mm (D) Made in Japan

Information

Material Description

**\*1 Claro Walnut:**  
A rare wood that is native to the western United States. It reveals beautiful woodgrain patterns when processed, making it prized for luxury furniture and decorative crafts.

**\*2 Ultrasuede® BX:**  
A sustainable suede-like synthetic leather partially made from plant-derived materials.

**\*3 Shimamoku patterns:**  
Thinly sliced Agathis wood is dyed black, bleached, laminated, and then sliced again to create the striped pattern.

**\*4 Ultrasuede® TS:**  
A thick, soft, and supple eco-friendly product which uses plant-based recycled resources as part of the raw materials.

**\*5 ECOPET®:**  
Recycled polyester fiber made from collected used plastic bottles.

**\*6 Onibegie®:**  
Onibegie® is an environmentally-conscious material that utilizes and combines various natural plant ingredients based on ingredients extracted from onion skins.

**\*7 Ultrasuede® HP (High Performance):**  
A sustainable suede-like artificial leather made from recycled polyester resin recovered from industrial film waste.

**\*8 REAMIDE:**  
A nylon resin recycled from discarded fishing net used in seawater. Manufactured and sold by Refinverse, Inc.

**\*9 CORDURA® TrueLock™ Fabric:**  
A robust and durable material designed to minimize environmental impact in the manufacturing process.

**\*10 MU-TECH ECO®:**  
A sustainable material made from 100% recycled nylon yarn and featuring a water-repellent finish.

**\*11 Cardboard material:**  
A circular knit (jersey) material made by layering the outer and lining fabrics and connecting them with a middle thread. This material is characterized by its high heat retention and lightweight characteristics.

**\*12 Summer Shield®:**  
A laminated polyester fabric developed by Toray. It features a light blocking rate of over 99.99%, a UV shielding rate of over 99%, and heat insulation of -4°C or more, providing a shade effect strong enough to cast a shadow on the face.

**\*13 Kip leather**  
High-quality leather made from young cattle aged between six months and less than two years.

**\*14 Ultrasuede® ST (Standard):**  
Sustainable suede-like synthetic leather made of 30% plant-derived polyester.

**\*15 Hybrid Leather:**  
Made by laminating an ultra-thin carbon pattern film onto cowhide, this leather possesses superior resistance to wear, light, heat, and water.

Material Information / Precautions

\* Because wood is a natural material, there are individual differences in the appearance of the wood grain.

\* Please note that leather is a natural material and therefore may exhibit unique characteristics such as veins, wrinkles, and color variations.

\* The pattern of the cloth varies depending on the cutting location.

\* The expression created by the crocodile textured pattern differs depending on the part of leather.

<Product #88>

\* Because indigo dye is used, color may transfer to other items (clothing, accessories, small items, sofas, and car seats) due to friction. Please handle with care.

\* Please note that color fading is more likely to occur when the bags are wet due to perspiration or rain.

Product Terminology

\*a LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

\*b Special resin: Highly functional polymer compound with excellent tensile strength, heat resistance, etc.

\*c MDF: Medium Density Fiberboard. Wood material that is hardened by drying and compressing wood fibers.

\*d Spruce Tone: Spruce is a coniferous tree of the Pinaceae family.

\*e Pure Essential Oil: Oil extracted from natural materials. The color may vary depending on type.

\*f Molded Plywood: This is a technique where the wood is bent by applying glue to a piece of wood about 1 mm thin, overlapping it, placing it in a mold, then applying heat.

\*g SKP movement: SKP movement is sold by Seiko Time Creation, Inc.

\*h Natural Japanese cypress: HINOKI series products are made from natural cypress thinnings sourced from Hinohara Village, Nishitama District.

\*i Fukin-machi (accordion gusset): The name refers to how the shape of the outward-folded gussets resembles the shape of an accordion bellows.

\*j FAM: An abbreviation of family. Refers to family members and relatives.

\*k Inden: Inden is a traditional technique with a history spanning over 400 years. It involves dyeing deerskin and applying patterns using lacquer. This method combines meticulously chosen, high-quality deerskin with lacquer that deepens in color and sheen over time, creating a distinctive beauty and texture.

\*l Natural shrink processing: A processing method that uses special chemicals to shrink the leather surface, thereby creating unique wrinkles and crimping texture.

Antibacterial

Antibacterial treatment: Treatment that inhibits bacterial growth.

Antibacterial and deodorizing

Antibacterial and deodorizing treatment: Treated for antibacterial and deodorant performance.  
\* Not guaranteed effective against all types of bacteria.

Antiviral

Antiviral treatment: This is treatment that reduces the numbers of specific viruses in the fibers.  
\* Not guaranteed effective against all viruses.  
\* The antiviral treatment is not for the purpose of disease prevention or medical treatment.

Product Usage Precautions

For products #4, #5 and #46 to #49

\* Please do not expose the glasses to sudden temperature changes.

\* Cannot be used in microwaves or dishwashers.

\* Because each item is handmade, the color, pattern, and texture of delivered products may differ from the photograph.

For product #20

\* Due to the manufacturing method of the half mirror, black spots or uneven reflections may be seen depending on the viewing angle and surrounding environment.

\* The case may become cloudy depending on some indoor environments. When placed near a humidifier, tap water components, preservative components, etc., may adhere to the case, causing it to become white and cloudy.

\* If you wish to use the music box for commercial use, you must sign a contract with the Japanese Society for Rights of Authors, Composers and Publishers (JASRAC) and pay for performance rights.

For products #42 to #45

\* There are individual differences in colors on the sides of products, as well as the Lexus mark, logo, and other areas that have been laser processed.

\* If it gets dirty, rinse with water or warm water, dry thoroughly, and store properly without using bleach.

\* Due to aging or repeated washing and drying, warpage, cracking or discoloration of the products may occur.

For products #50 and #51

\* Because each item is handmade, the color, pattern, and texture of delivered products may differ from the photograph.

For products #67 to #71

\* These products do not provide functionality such as shock absorption when dropped, pressure resistance, etc. They do not support the use of wireless chargers.

\* iPhone not included.

\* iPhone is a trademark of Apple Inc., registered in the United States and other countries.

\* The iPhone trademark is used under license from Aiphone Co., Ltd.

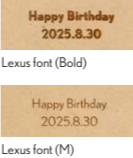

For products #72 and #73

\* Apple Watch not included.

\* Apple Watch is a trademark of Apple Inc., registered in the United States and other countries.
