Experience luxurious relaxation in the ideal posture.

A uniquely designed sofa and ottoman, ergonomically crafted to guide you into the ideal “S-shaped posture*1”. Experience premium relaxation at home with a soothing seating experience enhanced by the latest technology.

NEW

1. Style Sofa/Ottoman

Sofa 251C001 144,600 yen (tax incl.)

Ottoman 251C002 33,800 yen (tax incl.)

The sofa is designed to cradle the spine and pelvis, reducing strain on the lower back and shoulders. The ottoman features a gently sloped design toward the feet, allowing for leg extension while maintaining the ideal (S-shaped posture*1) for a relaxed and ergonomic sitting experience. To enhance both comfort and tactile sensation, the cushion is constructed with four layers of urethane foam, each with a different firmness, delivering a uniquely supportive feel.

Material: [Frame] Polystyrene [Cushion inner stuffing] Urethane Foam, Polyester Fiberfill

[Upholstery] Polyester, Polyurethane, Nylon

Size: [Sofa] 730 mm (W) × 800 mm (D) × 750 mm (H) 360 mm (SH)

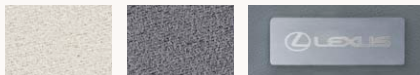

[Ottoman] 515 mm (W) × 345 mm (D) × 360 mm (H) 360 mm (SH) Made in China

[Backrest Angle]

By setting the backrest angle to 110 degrees, muscle activity around the lower back is reduced, allowing for a more comfortable sitting experience with minimal strain on the body.

[Overhang Structure]

A recessed area beneath the seat allows you to pull your legs in, enabling a smoother and more effortless transition when getting up from the sofa.

Ivory

Charcoal Gray

A steel plate with the Lexus mark and logo on the back.

Charcoal Gray

Style Sofa/Ottoman, Dr.CHAIR Plus
Product Features

Point 1

Supports an “Upright” Waist.

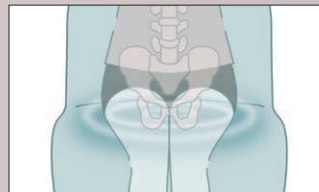

The forward-tilting seat helps maintain the body's center of gravity forward. It guides you into the ideal S-shaped posture*1 by keeping the lower back properly aligned.

Point 2

“Supports” the Pelvis.

By firmly supporting the lower back from both sides, the pelvis remains stable.

Point 3

“Distributing” Body Pressure.

The ergonomic shape conforms to the body, alleviating muscle compression while preventing the pelvis from tilting backward or shifting side to side.

A support chair with a uniquely contoured design that cradles the spine and pelvis, promoting better posture. Simply sitting on it naturally distributes body pressure, helping to alleviate misalignment and muscle strain.

NEW

2. Dr.CHAIR Plus

251C003 65,400 yen (tax incl.)

The carefully designed shape cradles the spine and pelvis, reducing strain on the lower back and shoulders.

Material: [Frame] Polystyrene [Cushion inner stuffing] Urethane Foam [Upholstery] Polyester

Size: 590 mm (W) × 560 mm (D) × 655 mm (H) 310 mm (SH) Made in China

[Backrest Angle]

The backrest angle is set to 80 degrees to support the maintenance of an S-shaped posture*1. It helps distribute body pressure that tends to concentrate in specific areas. Designed for prolonged sitting, the chair reduces fatigue and minimizes strain on the body.

Gray

Brown

A black silicone plate with the Lexus mark and logo on the back.

Gray

Brown

A supreme masterpiece, meticulously created by master craftsmen who truly appreciate your love for your vehicle.

“We never compromise on the beauty of our creations.” This is the motto of Takumi Kobo, a group of sheet metal craftsmen dedicated to working on Lexus vehicles. It is also the belief of vehicle craftsmen. Each fuel cap cover is meticulously handcrafted with an unwavering commitment to detail, ensuring that the artisans’ skills and mindset are deeply embedded in every piece. This one-of-a-kind item serves as a bridge between the hearts of the owner and the craftsman. Embrace a beautiful connection with your vehicle every time you open the fuel door.

Special hammering

The inherited techniques and tools for shaping vehicle exteriors are expertly applied. Specially prepared hammers create distinctive patterns on each workpiece.

Heat treatment using burners (Coloring Process)

Following the hammering process, the cap covers are heated with a burner to develop their color. This heat treatment is exclusive to the new TAKUMI ENREI series. Since even slight differences in the heating method and heating time cause subtle changes in color, the optimal tempering is determined through the experience and aesthetic perception of expert metal craftsmen.

The “Takumi Enrei” series utilizes welding techniques to join metals and is distinguished by its lustrous shine and deep, rich colors that enhance the natural characteristics of the materials. The two new designs showcase dynamic, vibrant, three-dimensional forms that embody the bold and powerful essence of sheet metal processing.

“Hiai” is created through a meticulous roasting process. The material is first heated over a burner until it turns scarlet, then expertly transformed into an indigo blue hue through the master’s precise roasting techniques. Each piece features a one-of-a-kind, uniquely rich indigo color, ensuring that no two are ever the same.

3. Fuel Cap Cover by TAKUMI Car Craftsmen

HIAI
KON

NEW

TAKUMI ENREI HIAI -KON

A powerful expression of vigorously rippling water, brought to life through masterful sheet metal craftsmanship. This exquisite piece blends a refreshing aesthetic with the deep hues of Hiai.

251C004 **70,000 yen** (tax incl.)

Material: [Body] Stainless steel
[Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive
Stainless steel size: 67 (DIA) × 22.5mm (H) Made in Japan

HIREI
KON

HIREI
KON

NEW

TAKUMI ENREI HIREI -KON

A shape reminiscent of natural minerals is powerfully brought to life through masterful sheet metal craftsmanship. The newly created pre-dawn purple Hirei, achieved through a meticulous baking process, radiates a shimmering, jewel-like brilliance.

251C005 **70,000 yen** (tax incl.)

Material: [Body] Stainless steel
[Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive
Stainless steel size: 67 (DIA) × 22.5mm (H) Made in Japan

TAKUMI ENREI HIAI

While preserving the metal’s smooth texture, craftsmen heat the surface until the material turns crimson, causing it to express a deep indigo blue.

242C001 **45,100 yen** (tax incl.)
242C002 **48,100 yen** (tax incl.) Personalized Name Service

Material: [Body] Stainless steel
[Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive
Stainless steel size: 67 (DIA) × 18mm (H) Made in Japan

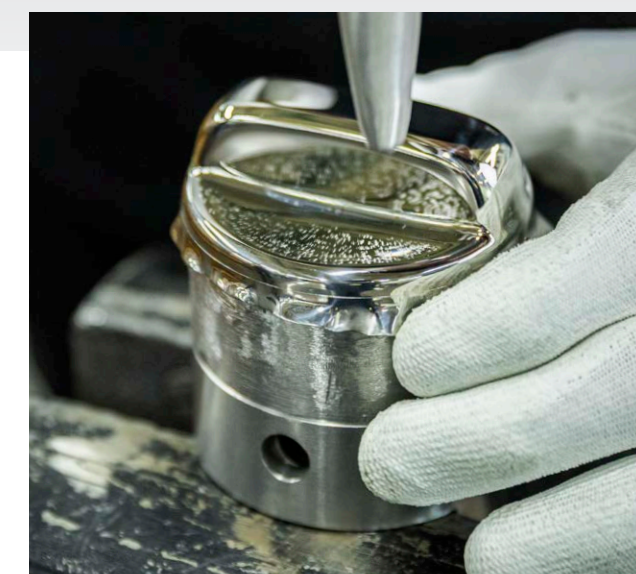

TAKUMI ENREI HIAI -TAN

The process of shaping and refining the metal is expressed in a radial pattern. The crimson blue color further enhances the delicate design.

242C003 **60,000 yen** (tax incl.)
242C004 **63,000 yen** (tax incl.) Personalized Name Service

Material: [Body] Stainless steel
[Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive
Stainless steel size: 67 (DIA) × 18mm (H) Made in Japan

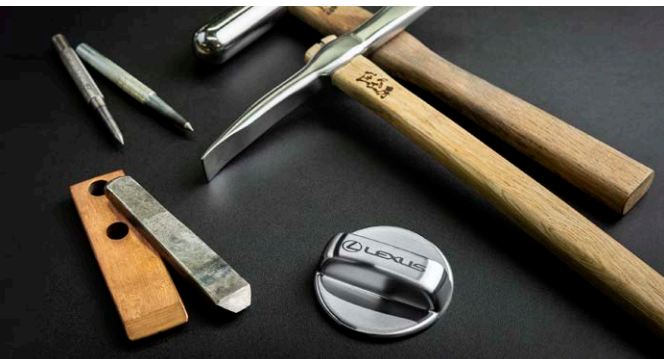

The products shown on pages 6 and 7 will be shipped 3 to 4 months after the receipt of the order.

*For details on ordering personalized name engraving, please refer to the next page, page 8.

The "spindle," a brand icon of Lexus vehicles, is crafted with precision and modernity using lasers and hammers. The refined quality of the metal stands out, making it a premium piece.

3. Fuel Cap Cover by TAKUMI Car Craftsmen

Spindle Luster -YOI

Carefully polished to achieve a stunning shine and luster, the delicate pattern evokes the beauty of stars and moonlight, creating an impression of luxury.

241C003 **80,300 yen** (tax incl.)

241C005 **83,300 yen** (tax incl.) [Personalized Name Service](#)

Spindle Premium Matte -HAKUJITSU

The matte texture exudes a sense of quality. While highlighting the smoothness of the metal, it evokes the image of translucent white sunlight and the radiance of the sun.

241C004 **80,300 yen** (tax incl.)

241C006 **83,300 yen** (tax incl.) [Personalized Name Service](#)

PLAIN

The PLAIN variation enhances the smoothness of stainless steel.

232C002 **31,300 yen** (tax incl.)

241C007 **34,300 yen** (tax incl.) [Personalized Name Service](#)

LAND

The LAND variation is a bold expression of natural terrain.

232C004 **37,500 yen** (tax incl.)

MOKU

The MOKU variation expresses the complex figure of wooden material.

232C005 **42,900 yen** (tax incl.)

241C010 **45,900 yen** (tax incl.) [Personalized Name Service](#)

Material: [Body] Stainless steel [Back side of the main body] Double-sided tape, Acrylic foam + Acrylic adhesive
Stainless steel size: 67 (DIA) × 18mm (H) Made in Japan

The products shown on page 8 will be shipped 3 to 4 months after the receipt of the order.

Personalized Name Engraving

Name Location	Front side, Lower half of the design
Name Affixation Method	Laser engraving
Character type	Alphanumeric (uppercase letters, lowercase letters)
Font	Lexus font
Number of characters	Up to one line with 15 characters

For more than 80 years, the city of Toyota in Aichi Prefecture is home to the finest craftsmen of sheet metal for automobiles. They create the first prototypes of the Toyota and Lexus models, and this group of sheet metal craftsmen are called the "TAKUMI KOBO". They refine the skills that have been passed down from predecessors to deliver them in a new form for Lexus customers.

The joy of playing music with responsive keys.

KAWAI's unique oval aluminum pipes produce a clear and pleasant sound, precisely tuned by hand by master craftsmen. The keys offer an authentic touch, making this an ideal first piano for children. Its elegant design also enhances the sophistication of any room.

Crafted from rare and highly valuable Claro Walnut wood, this one-of-a-kind piece captivates with the breathtaking beauty of its unique wood grain.

Walnut/Walnut Tone

NEW

4. Mini Grand Piano (Walnut)

251C006 **58,900 yen** (tax incl.)

251C007 **62,200 yen** (tax incl.) [Personalized Name Service](#)

The exterior is crafted from the same fine wood used in Lexus interior components. Each piece is meticulously handcrafted by artisans, who carefully consider the unique characteristics of the wood grain pattern, resulting in a truly one-of-a-kind design.

Material: [Body] Wood (MDF*), Walnut Veneer
[Partitions] Wood (MDF*), PVC Laminate Finish
[Keyboard] PS resin [legs] Wood (Solid Wood)
[Sound source] Aluminum pipe
Size: 425 mm (W) × 205 mm (H) × 450 mm (D) (when legs are attached and lid is closed)
Weight: 3,100 g Target age: 3 years or older Made in Japan

The decorative material used is Claro Walnut, a fine wood utilized in Lexus interior parts. Claro Walnut is a walnut species native to the western United States. When milled into lumber, it reveals a beautiful grain pattern, making it a rare and highly prized wood used for high-end furniture and decorative crafts.

Personalized Name Service

Example of Name	Name Affixation Method	Sticker
Happy Birthday 2025. 8.30	Character type	Alphanumeric

Kawai Musical Instruments Manufacturing Co., Ltd. **KAWAI**

Under the slogan "We Touch the Heart Strings," Kawai develops, sells, tunes, and repairs pianos, operates music schools offering piano lessons, rhythm classes for children, etc., and develops health promotion businesses such as physical education classes. In addition, the company also operates businesses such as metal processing and painting, and uses advanced coating technologies to manufacture wood panels for Lexus vehicle interiors.

Brilliant crystal and
soothing sound.

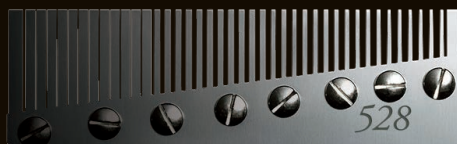

A fusion of advanced technology and craftsmanship.
Our music box gives live performances of 1,172 songs
in the healing tone of 528 Hz.

Primotone Crystal is an electronic music box that plays live performances by using fine pins to pluck comb teeth in accordance with specially created musical composition data.

The music box was born from the advanced motor technology and electronic control technology of Brother Industries, and from the extensive know-how in musical composition of XING Inc. Musical composition data for 1,172 songs are recorded on three special SD cards. Powered by an AC adaptor, the music box can perform a symphony lasting more than 30 minutes. The comb teeth are the heart of the music box. Each tooth is carefully polished by skilled craftsmen and tuned to play 528 Hz, a frequency attracting attention as a healing tone. Furthermore, the case combines highly transparent acrylic and a half mirror. This design allows the case to change its expression due to the reflection of light, emitting a beautiful crystal-like shine. From materials to assembly, all facets of the music box are finished by the hands of premier craftsmen.

Full-chorus live performances of 1,172 songs in a variety of
genres ranging from classic to pop music

*Some songs were recorded as excerpts of a portion of musical composition.

* Due to the manufacturing method of the half mirror, black spots or uneven reflections may be seen depending on the viewing angle and surrounding environment.
* The case may become cloudy depending on some indoor environments. When placed near a humidifier, tap water components, preservative components, etc., may adhere to the case, causing it to become white and cloudy.
* If you wish to use the music box for commercial use, you must sign a contract with the Japanese Society for Rights of Authors, Composers and Publishers (JASRAC) and pay for performance rights.

Through expert craftsmanship, comb teeth
are specially tuned to play at the relaxing
tone of 528 Hz

Unlike conventional music boxes, it is
possible to adjust the volume and tempo

Sound played by the comb teeth resonate
within the box, creating a beautiful tone
resembling a live performance

8. Music Box Primotone (Primotone Crystal Model)

192C001 **2,200,000 yen** (tax incl.)
Material: [Body] Acrylic resin [Mechanical Parts] Steel, Aluminum, ABS
Size: 306 mm (W) × 145 mm (H) × 217 mm (D)
Weight: 59 kg
Accessories: AC adapter, 1 Power cord, 3 SD cards
Made in Japan

This product will be shipped 2 months after order receipt.

Brother Industries, Ltd.

Manufacturer specializing in printers, fax machines, sewing machines, etc. Possesses a top global share in both home and industrial sewing machines.

XING Inc.

A group company of Brother Industries. Operates JOYSOUND on-demand karaoke for commercial use.

Be at ease and
be your true self.

Premium sound enveloped by silence.
Mark Levinson wireless headphones that have continued
to challenge the realm of high-end audio.

These headphones feature expertly designed sound and advanced noise cancellation achieved through decades of research. A distinctive element of the brand is ear cups which are designed in the motif of volume knobs from sound equipment such as amplifiers. The head band and ear cushions are made from luxurious sheepskin leather which realizes both a comfortable fit and an appropriate seal. From sound quality to the actual product, these headphones overflow with the passion and attention to detail of Mark Levinson.

Unparalleled sound performance

The headphones use a newly-designed 40 mm diameter driver with beryllium coating for superior audio properties. This is combined with the high-definition Bluetooth wireless connection so that listeners can enjoy sound with high purity and utmost refinement.

Blocks surrounding noise

Surrounding noise is effectively reduced by Adaptive Active Noise Cancelling technology with three modes that can be selected according to the situation. Even in noisy environments such as on a plane or train, enjoy being surrounded by silence so that you can savor the nuances and subtleties of your favorite music.

Clear sound on telephone calls

Users can receive incoming telephone calls while listening to music on their smartphone. Clear sound on telephone calls is achieved by four beamforming microphones that reduce surrounding noise such as wind noise.

Converse smoothly while listening to music

If someone talks to you while you are listening to music, you can use the Ambient Aware which allows the microphone to pick up surrounding voices. This enables you to converse smoothly even while wearing the headphones.

* There are individual differences such as some wrinkling or small imperfections due to using natural sheepskin leather.
* Water leakage, perspiration, or friction may result in colors being transferred to clothing or the like.

9. Headphone (Mark Levinson)

222C001 **149,600 yen** (tax incl.)
Material: Aluminum, Resin, Sheepskin Leather Size: 205.4 mm (W) × 202.6 mm (H) × 65.4 mm (D)
Weight: Approx. 340 g
Accessories: Hard shell carrying case, USB-C to 3.5 mm audio cable (4 m),
USB-C to 3.5 mm audio cable (1.2 m), USB-C to USB-C cable (1.2 m),
USB-C to USB-A conversion adapter, 3.5 mm to 6.3 mm conversion adapter,
Flight adapter, Microfiber cloth * AC adapter is not included. Made in China

Enjoy music all day long with up to 34 hours of continuous playback. (Up to about 30 hours when using noise canceling) The dedicated app allows you to adjust sound quality and change various settings from your smartphone. (iOS / Android)

This product will be shipped 1 month after order receipt.

Mark Levinson mark levinson

Founded in 1972, Mark Levinson established a new genre of high-fidelity audio based on the sound concept of designing stereo components that recreate the sound of music exactly as heard in the studio. For more than 50 years since then, the company's unwavering passion has always raised the level of audio, and each product is fully equipped with technology that faithfully reproduces the artists' performances. The company also develops car audio systems for Lexus vehicles, and optimal sound systems for each model are available as a manufacturer option.

*Mark Levinson is a trademark of Harman International Industries, Incorporated.

Beautiful Form, The Artistry of Lexus' Craftsmanship.

This chair and stool are produced using the "Molded Plywood"*1 technology, which is also used in the manufacture of Lexus steering wheels. Molded Plywood construction involves thin boards layered on top of each other, allowing the grain of the wood to intersect and create a delicate, beautifully curved surface.

Natural/Orange

Roll Press Wood

Furniture crafted using the "molded plywood"*1 technology that TENDO MOKKO has refined over the years. This process reflects four key principles designed with the user's lifestyle in mind.

"Flexible Strength" That Absorbs Shock

Rather than relying on the natural hardness of solid wood, optimal strength is achieved by layering thin sheets of wood, creating flexibility suited to the furniture's intended use.

"A Beautiful Form" Unattainable with Solid Wood

Molded plywood*1 is both thin and strong, enabling the creation of intricate curves and delicate shapes.

"Lightweight" and Easy to Move

For chairs that are frequently moved when sitting and standing, ease of movement is essential. Molded plywood offers both strength and a lightweight feel, making it an appealing choice.

A Luxurious "Touch"

TENDO MOKKO applies multiple layers of meticulous painting and polishing, ensuring an exceptionally smooth and refined finish with attention to every detail.

The seat features Ultrasuede® BX*2, offering a soft and luxurious feel. With its high-back design, you can fully relax and enjoy movies and music in comfort.

Ultrasuede®, used in the Lexus RZ seats, is a high-quality suede-like synthetic leather developed by Toray which utilizes cutting-edge technology to achieve both a pleasant texture and high durability.

Natural/Hazel

Brown/Dark Gray

10. High Back Chair/Ottoman

High Back Chair 241C001 306,600 yen (tax incl.)
Ottoman 241C002 142,100 yen (tax incl.)

The high back chair and ottoman by Tendo Mokko feature Ultrasuede® BX*2 upholstery, the same material used in Lexus RZ seats, providing excellent water and stain repellency. Utilizing the same "Molded Plywood"*1 construction found in Lexus steering wheels, it imparts a light impression and solid strength. The design creates a relaxing and comfortable atmosphere for spending time with family and friends, sitting for long hours watching movies, listening to music, or any other occasion.

Material: [Frame] Beech (White Beech) [Upholstery] Suede-like artificial leather (Ultrasuede®BX*2) [Plate] Steel
Size: [High Back Chair] 654 mm (W) × 1,060 mm (H) × 914 mm (D) 404 mm (SH) Weight: Approx. 11.7 kg Maximum load weight: 90 kg
[Ottoman] 654 mm (W) × 404 mm (H) × 450 mm (D) 404 mm (SH) Weight: Approx. 5 kg Maximum load weight: 90 kg Made in Japan

This product will be shipped 45 days after order receipt.

Strong, supple form achieved by using molded plywood*1 technology

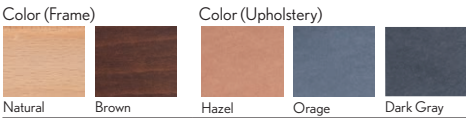

Smooth texture and beautiful coloration

A steel plate with the Lexus mark and logo on the back.

Customizable Items (Product #10)

Customize the look by choosing your favorite combination of wood and cushion color.

Graceful curves inspired by the spindle grille design accentuate the beauty of the wood grain. It serves not only as a stool but also as a functional side table.

Shimamoku (black)

Shimamoku (natural color)

Japanese Cedar (natural color)

11. Stool

Shimamoku (black) 192C002 170,600 yen (tax incl.)
Shimamoku (natural color) 192C003
Japanese Cedar (natural color) 192C004

A stool designed in the motif of a spindle pattern. Using the molded plywood*1 technology which is also applied to Lexus steering wheels, several thin wooden boards are stacked and bent while applying pressure to achieve high strength. There are two options available: Shimamoku*3 (synthetic wood with distinctive stripes) used in the interior of Lexus vehicles, and Japanese cedar, a tree species unique to Japan. The unique RPW technology*4 of Tendo Mokko is used to process the Japanese cedar to the appropriate hardness of furniture. The stool can also be used as a side table. The Lexus mark and logo are laser engraved on the stainless steel plate.

Material: [Surface Material] Agathis wood/Cedar [Core Material] White beech
[Plate] Stainless steel
Size: 357 mm (W) × 420 mm (H) × 357 mm (D) Weight: Approx. 4.7 kg Maximum load weight: 150 kg Made in Japan

This product will be shipped 45 days after order receipt.

*3 Shimamoku patterns: Thinly sliced Agathis wood is dyed black, bleached, laminated, and then sliced again to create the striped pattern.
*4 RPW technology: This technology achieves high hardness by using a roller to consolidate (press and adhere) soft woods such as cedar.
* Since the products delivered are made from natural materials, variations in color, pattern, and texture will occur.

Tendo Mokko

A furniture designer and manufacturer with its headquarters located in Tendo City, Yamagata Prefecture. Tendo Mokko was the first Japanese manufacturer to introduce molded plywood technology to furniture making. The company's utilized technology is also used in Lexus steering wheels and interior panels. Numerous furniture masterpieces created by Tendo Mokko have been selected for permanent collections at various museums in the United States and Europe.

Bags that elegantly enhances an ethical lifestyle with style and sophistication.

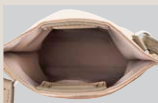

12. Smartphone Pochette (Ultrasuede®)

Light Blue 242C017

Made in Japan

59. Cufflinks (Spindle pattern)

192C041 **9,900 yen** (tax incl.)

Designed in the motif of a spindle pattern. Features four different height levels for a three-dimensional appearance.

Material: Brass
Size: 17 mm (W) × 17 mm (H) × 20 mm (D)
Made in Japan

60. Cufflinks (Brake discs)

182C020 **14,300 yen** (tax incl.)

Designed in the motif of brake discs. The special structure is a combination of four parts.

Material: Brass Size: 16.8 mm (W) × 16.8 mm (H) × 22 mm (D)
Made in Japan

For products #58 to #60, the Lexus mark and logo are engraved on the back.

61. Men's Belt (Shrunken finish)

Black 242C027 **15,700 yen** (tax incl.)
Dark Brown 242C028

A belt made from eco-friendly Italian LWG*1 certified leather. Crafted from genuine leather with a soft and smooth texture, and embossed with a shrunken finish. Features a rounded buckle and a slightly slim design that goes perfectly with a variety of business occasions.

Material: Cowhide (LWG*), Zinc alloy
Size: 1,145 mm (L) × 30 mm (W)
Fits waist sizes up to 100 cm Made in Japan

Lexus mark and logo (Embossed)

* For products #61 and #62, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

62. Men's Belt (Reversible/crocodile texture)

241C128 **16,800 yen** (tax incl.)

Black leather is embossed with a crocodile texture.

Color: Black (crocodile texture) × Dark Brown (smooth)
Material: Cowhide, Brass
Size: 1,150 mm (L) × 35 mm (W)
Fits waist sizes up to 100 cm (can be adjusted by cutting)
Made in Japan

* The expression created by the crocodile textured pattern differs depending on the part of leather.

63. Pocket Handkerchief (Edo-Komon Skull)

Navy 182C005 **9,880 yen** (tax incl.)
Light Gray 182C006

The skull pattern was designed based on the concept of the way in which all life flows, and the act of living in this world and Buddhist paradise. Dozens of processes are performed with great care and attention to detail. For example, hand-carved paper patterns hardened with persimmon juice are placed on white silk cloth, after which fine patterns are drawn using glue and a spatula.

Material: Silk 100% Size: 350 mm (W) × 350 mm (H) Made in Japan

* Because each item is handmade, the color, pattern, and texture of delivered products may differ from the photograph.

小紋廣瀬

Craftsman in
Edo-Komon dyeing

Hirose Yuichi

Born in 1978 in Shinjuku, Tokyo. He is a fourth-generation craftsman of the Hirose Dyeworks, which was founded in 1918. In 2014, he was selected as an award-winner at the 54th Exhibition of East Japan Traditional "K-oge" and the 61st Japan Traditional K-oge Exhibition. In 2015, he was selected as an award-winner at the 49th Japan Traditional Textile Arts Exhibition. When viewed from a distance, it looks like a plain fabric. However, if you take a closer look, you would find breath-taking delicate patterns. Hirose conveys this style and flair of Edo-Komon to the world.

*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

Elevate your business style with refined accessories.

64. Multi-function Pen/Oil-based <PLATINUM>
Black **NEW COLOR** 251C030 **8,500 yen** (tax incl.)
Navy 232C017 **7,800 yen** (tax incl.)
A twist-action multi-function pen made from genuine leather. This single pen combines black and red ballpoint pens (oil-based) and a mechanical pencil (0.5 mm).
Material: Brass, Cowhide Size: 144 mm (L) × 14 mm (Shaft DIM)
Weight: Approx. 36 g Made in Japan

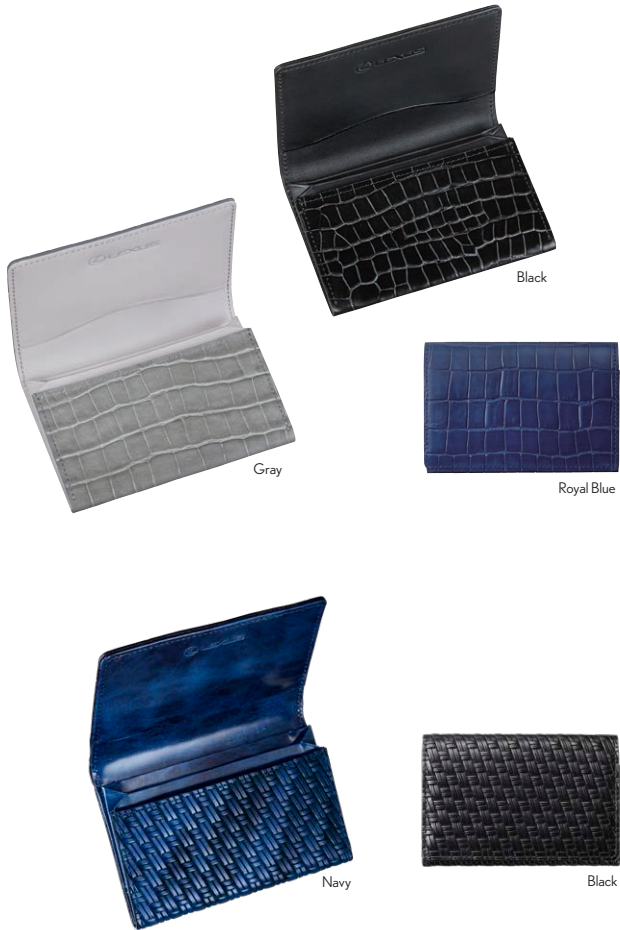

65. Ballpoint Pen (Coventry) /Oil-based <CROSS>
242C024 **8,800 yen** (tax incl.)
This ballpoint twist pen features a sleek refined silhouette and a glossy body.
Material: Brass Size: 140 mm (L) × 12 mm (Shaft DIM)
Weight: Approx. 29 g Made in China

66. Ballpoint Pen (IM) /Oil-based <PARKER>
232C018 **7,400 yen** (tax incl.)
A knock-type ballpoint pen featuring the iconic arrow clip and a glossy body texture.
Material: Brass Size: 140 mm (L) × 10 mm (Shaft DIM)
Weight: Approx. 23 g Made in China

67. Ballpoint Pen (Carbon) /Oil-based
222C039 **13,200 yen** (tax incl.)
A twist-action ballpoint pen made from carbon fiber fabric woven in Nishijin, Kyoto. Each stitch is carefully sewn by using the overlock sewing method used for Lexus LC steering wheels.
Material: Carbon fiber, Brass
Size: 135 mm (L) × 12 mm (Shaft DIM)
Weight: Approx. 36 g Made in Japan

68. Business Card Case (Calfskin leather with crocodile textured pattern)
Black 241C056 **17,100 yen** (tax incl.)
Royal Blue 241C057
Gray 241C058
This crocodile-style card case with accordion-style gussets is crafted from high-quality calf leather, offering a luxurious and lustrous texture. "Accordion-style gusset" is one of Japan's traditional techniques, named because the shape of the outward-folding gussets resembles the bellows of an accordion. The inside is made of eco-friendly LWG*1 certified leather, and each piece is carefully finished by a single craftsman who carries out each step of the process.
Material: Cowhide (LWG*), Nylon
Size: 113 mm (W) × 77 mm (H) × 15 mm (D) (holds about 40 business cards) Made in Japan

69. Business Card Case (Intrecciato texture)
Navy 172C051 **17,100 yen** (tax incl.)
Black 172C052
This business card case is embossed in an intrecciato style that resembles weaving and is made using the technique fukin-machi (accordion gusset). The name of this traditional Japanese technique refers to how the shape of the outward-folded gussets resemble the shape of an accordion bellows. This design prevents the edges of business cards from sticking for smooth insertion and removal. Each case is carefully finished by a single craftsman who handles all production processes. The Lexus mark and logo are embossed inside of the case.
Material: Cowhide, Nylon
Size: 113 mm (W) × 75 mm (H) × 15 mm (D) (holds about 40 business cards) Made in Japan

The gentle passage of time is reflected in the rings of natural wood nurtured by the Earth.

The appearance of the wood grain varies based on the age and environment of the tree. Each piece is handcrafted by skilled artisans to highlight the unique wood grains and create artistic KISSHO patterns*2. The individuality and warmth of natural wood contribute to a serene and elegant atmosphere of relaxation.

70. NENRIN CLOCK (ICHIMATSU)
ICHIMATSU 242C007 **57,900 yen** (tax incl.)
ICHIMATSU 242C008 **58,900 yen** (tax incl.) **Personalized Name Service**
The NENRIN CLOCK is generously sized and can be hung on the wall or used as a table clock. A description of the ICHIMATSU pattern and a serial number are engraved on the back.
Material: [Body] Natural Japanese cedar [Needle] Aluminum Size: 245 mm (W) × 245 mm (H) × 40 mm (D)
Weight: Approx. 1,000 g Accessories: One AA battery, Auxiliary leg (for display as a table clock)
Body: Made in Japan, Movement: Made in Thailand

71. NENRIN CLOCK
YABANE 201C003 **34,300 yen** (tax incl.)
HAMON 201C004 **27,000 yen** (tax incl.)

KISSHO patterns*2		*2 KISSHO patterns: Auspicious motifs
	ICHIMATSU pattern	The ICHIMATSU pattern has been used for decoration since ancient times. Since the pattern connects endlessly in all directions, it is an auspicious pattern that represents wishes for prosperity and bonds with others.
	YABANE pattern	The YABANE pattern depicts arrow feathers which rotate while cutting through the wind and guiding the arrow to its target. This lucky pattern is said to bring good luck on the battle field and a successful career.
	HAMON pattern	A traditional Japanese pattern, HAMON is a lucky pattern which represents the continuation of a peaceful life.
	SHIMA pattern	The SHIMA pattern is formed by alternating thick lines and thin lines. This pattern is also called Koukou, which means "filial piety." It is said to bring a safe and prosperous household.

MIMATSU Craft Ltd.

Founded in 1972. Manufactures furniture parts for the leading furniture production areas, Okawa and Morodomi. By utilizing the woodworking techniques of craftsmen in Saga Prefecture, MIMATSU Craft creates products with outstanding design and functionality. For example, the company launched the original brand M.SCOOP in 2008. MIMATSU Craft won the 2018 Wood Design Award and the 2018 Fukuoka Design Award.

*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.
* For products #68 and #69, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Due to the characteristics of leather, the color and texture of delivered products may differ from the photographs.

* Products #70 and #71 use natural materials, so variations in color, pattern, and texture may occur.
* Products #70 and #71 use an SKP movement, which is sold by Seiko Time Creation, Inc.

The texture of natural wood elegantly enhances both photos and spaces.

The iconic Lexus design is laser-engraved onto natural cypress wood, highlighting its beautiful color and grain. This modern and playful frame adds a unique touch, making your cherished photos stand out in an impressive way.

* HINOKI series products are made from natural cypress thinnings sourced from Hinohara Village, Nishitama District.

The delicately designed patterns on the parts add a touch of elegance and playfulness to your dining table.

74. Set of Coasters and Pot Mat (HINOKI) LM

242C033 **7,100 yen/set** (tax incl.)

The designs are inspired by the front view, wheels, and steering wheel of the Lexus LM. This pot mat serves as both a teapot pad and a trivet.

Material: Japanese natural cypress Size: Coaster: 90 mm (W) × 6 mm (H) × 90 mm (D) Pot Mat: 150 mm (W) × 6 mm (H) × 150 mm (D) Set Contents: 2 coasters (one for each design), 1 pot mat Made in Japan

75. Set of Coasters (HINOKI) Car Motif

242C034 **6,700 yen/set** (tax incl.)

The designs are inspired by the front views of the Lexus RX, RZ, LM, and LBX, as well as the Lexus mark and logo.

Material: Japanese natural cypress Size: 90 mm (W) × 6 mm (H) × 90 mm (D) Set Contents: 5 coasters (one for each design) Made in Japan

76. Set of Coasters (HINOKI) LBX

242C035 **6,700 yen/set** (tax incl.)

These coasters are designed in the motif of the Lexus LBX's instrument meter, steering wheel, wheels, and front view.

Material: Japanese natural cypress Size: 90 mm (W) × 6 mm (H) × 90 mm (D) Set Contents: 5 coasters (one for each design) Made in Japan

77. Set of Magnets (HINOKI)

231C045 **6,000 yen/set** (tax incl.)

Designed in the motif of parts from Lexus RZ/LC models and a spindle pattern.

Material: Japanese natural cypress, Magnet Size: 45 mm (W) × 6 mm (H) × 45 mm (D) Set Contents: 5 magnets (one for each design) Made in Japan * Since the magnets are embedded in natural materials, there may be individual differences in the mounting angle.

Kodamado produced by MIRICE Co., Ltd.

A manufacturer that specializes in 3D modeling by utilizing expertise that originated from the manufacturing of 3D printers. Launched the Kodamado brand, which handles wood products, and proposes modern Japanese products perfect for today's lifestyle. Also focuses on environmental consideration and the use of regional materials, and promotes the use of thinned wood.

* Since the products delivered are made from natural materials, variations in color, pattern, and texture will occur.
* There are individual differences in colors on the sides of products, as well as the Lexus mark, logo, and other areas that have been laser processed.
* If it gets dirty, rinse with water or warm water, dry thoroughly, and store properly without using bleach.
* Due to aging or repeated washing and drying, warpage, cracking or discoloration of the products may occur.

Enjoy the rain as the Nurenza scatters the raindrops.

Nurenza umbrellas use an ultra-high-density polyester material that causes raindrops to roll off the umbrella without being deformed. This effect is inspired by raindrops sliding on lotus leaves. We pay particular care to the tension of the fabric so that you can enjoy the sound of rain falling on the umbrella. In addition, the handle is crafted from maple and genuine leather, offering a soft, comfortable feel. The tips and a ferrule have a wood finish that prevents damage to the car.

78. Umbrella “Nurenza” Carbon

From 12:00 PM on March 3, 2025

251C060 **67,100 yen** (tax incl.)

Resource-Circulating Tableware

Tableware designed by renowned Japanese architect Kengo Kuma, crafted from the environmentally-friendly material TRANSWOOD. TRANSWOOD is an environmentally friendly material made from biomass resin produced from thinned wood and recycled waste cooking oil. Three exquisitely designed plates with a gradation of shaded black complement a wide variety of dishes.

82. TRANSWOOD Tableware Set

232C001 **29,700 yen/set** (tax incl.)

Lightweight and durable, the tableware can be used in a variety of ways. Enjoy a fine dining experience with a small number of dishes.

Material: TRANSWOOD (Japanese cedar 50%, Biomass 50%)
Size: 270 mm (DIA) × 20 mm (H) (Plate), 210 mm (DIA) × 20 mm (H) (Plate)
150 mm (DIA) × 55 mm (H) (Bowl) Made in Japan

* Due to the characteristics of the material, each piece has a different appearance. Please enjoy the unique look of each piece.
* Cannot be used in microwaves or ovens.
* Dishwasher safe.

Architect Kengo Kuma

I designed the three TRANSWOOD plates as I sympathize with the vision of working toward a circulating society. I believe that incorporating new eco-friendly materials into our daily lives contribute to realizing such vision.

Born in 1954, Kuma established Kengo Kuma & Associates in 1990. He is currently University Professor and Professor Emeritus at the University of Tokyo after teaching at Keio University and the University of Tokyo. With projects underway in more than 50 countries, Kuma proposes architecture that opens up new relationships between nature, technology, and people.

hk hide k 1896

An environmentally conscious brand established in 2013 by Hideyuki Kasuga (Doctor of Engineering) under the slogan of "PRODUCE & RECYCLE." Based on the new Japanese aesthetic sense of "WABI contemporary", the brand develops environmentally friendly materials and products in a variety of categories. Kasuga also advocates "Reiwa Modernism" and is working to design a unique Japanese lifestyle which fuses the new and the old.

A beautifully-designed textile pattern capturing the delicate “moonlight path” created by the soft glow of the moon on gently rippling water.

The “moonlight path,” is a mysterious natural phenomenon that can only be seen a few days before and after a full moon. It occurs when moonlight creates a long, narrow path on the surface of the sea, captivating people with the delicate gradations caused by the shimmering waves. The door trim on the Lexus LS uses Nishijin Textile® that takes the lovely sight of this “moonlight path” as its motif, replicating it with glimmering silver threads. These fine products use the same material as the Lexus LS for a glamorous lifestyle.

Nishijin Textile® has flourished in Kyoto since some 1,200 years ago, enjoying the patronage of the nobility and warrior class as well as wealthy townspeople. Production requires more than twenty highly specialized steps, with each overseen by an expert artisan, all dedicated to the pursuit of beauty. These original Lexus items are the result of collaboration with HOSOO, which continues to take up the challenge of innovative product-making that imbues this traditional Nishijin Textile® with novel sensibilities.

These Nishijin Textile® items for the Lexus collection are meticulously crafted one by one by artisans using carefully selected materials to add color to your daily life.

83. Nishijin Textile® Cushion (HOSOO)

S-size 242C106 **59,100 yen** (tax incl.)

M-size 242C107 **75,000 yen** (tax incl.)

The inner stuffing is 100% high-quality feather. Woven tag with the Lexus mark and logo on the inside.

Material: [Cushion cover outer material] Polyester, Rayon
Japanese washi paper
[Cushion cover lining] Polyester, Silk
[Cushion outer material] Polyester, Silk
[Cushion inner stuffing] 100% feather
Size: [S-size] Approx. 400 mm (W) × 400 mm (H) × 220 mm (D)
[M-size] Approx. 500 mm (W) × 500 mm (H) × 220 mm (D) Made in Japan

84. Nishijin Textile® Room Shoes (HOSOO)

Size 1 242C108 **111,800 yen** (tax incl.)

Size 2 242C109 **119,900 yen** (tax incl.)

Crafted for top-class comfort and fit using artisan-fashioned lasts and genuine leather. These can be worn both indoors and outdoors.

Material: [Outer material] Polyester, Rayon, Japanese washi paper
[Body] Cowhide, Goat leather
Size: [Size 1] Approx. 110 mm (W) × 100 mm (H) × 260 mm (D)
(Approximate shoe size: 24 to 26 cm)
[Size 2] Approx. 130 mm (W) × 100 mm (H) × 300 mm (D)
(Approximate shoe size: 26 to 28 cm) Made in Japan

85. Nishijin Textile® Square Pouch (HOSOO)

242C110 **62,300 yen** (tax incl.)

Features an interior pocket. This versatile item can be used inside a larger handbag or as a clutch. Woven tag with the Lexus mark and logo on the inside.

Material: [Outer material] Polyester, Rayon, Japanese washi paper
[Lining] Suede-like artificial leather
Size: Approx. 325 mm (W) × 240 mm (H) × 10 mm (D) Made in Japan

HOSOO

Founded in 1688 in Nishijin, Kyoto, as a weaving establishment catering to large temples. Even while carrying down traditional Nishijin Textile® skills for obi sashes and kimonos on into modern times, by adding innovative techniques and timeless design sensibilities to create unique textiles, HOSOO is advancing into the luxury market both in Japan and overseas together with also turning its expertise to the door-trim materials for the Lexus LS.

An aroma diffuser easily used even in spacious rooms.

Enjoy original high-quality Lexus aroma oil in your living room, private space, or office.
The stylish aluminum body is designed to fit perfectly into any room. According to the situation, please choose your favorite scent from WOOD, FLOWER, MINT, HERB, and WOODY CITRUS.

Relax and unwind in the fresh scent of the forest.

100% HIBA aroma oil and aroma spray extracted from Aomori cypress trees. These trees have a lifespan of 300 years, which is longer than the average tree lifespan of 100 years. The wood contains hinokitiol, which has antibacterial, deodorant, insect repellent, and antifungal properties. Wood chips and scraps generated when processing the cypress trees are used in consideration of the environment.

95

95. Aroma Oil HIBA (30 ml)

232C025	7,100 yen (tax incl.)

* Not guaranteed effective against all viruses.

* The product is effective in inhibiting viruses, but no guarantee regarding prevention of infection is made.

The invigorating fragrance of a forest in Mie Prefecture – an original Lexus blend.

This gentle natural aroma is based on oil extracted from hinoki cypress trees in Toyota Mie Miyagawa Forest. Toyota Motor Corporation believes that we can regenerate forests in Japan by leveraging our overseas tree-planting experiences and our expertise cultivated in automobile manufacturing. In 2007 we acquired mountain-forest land in the former Mie Prefecture village of Miyagawa (now the town of Odai) in 2007 and launched forest restoration efforts.

HINOKI

The fresh and soothing hinoki fragrance feels as if you are in an invigorating forest
<Ingredients> Hinoki Cypress, Cypress, Bergamot, Ho Wood, Spearmint, Clove

Set Contents: 2 Cups (same colors), 2 Saucers (same colors) Made in Japan

108. Pair of Mugs (Spindle pattern)
222C047 **6,050 yen/set** (tax incl.)
The spindle pattern is painted over a unique smoked black base that combines vintage matte and Luster*1 shine.
Material: Porcelain Size: Approx. 115 mm (W) × 90 mm (H) × 80 mm (D) Set Contents: 2 mugs (one of each color) Made in Japan
*1 Luster: A glaze that emits a rainbow-like metallic luster which changes depending on how light hits the surface.

Japan Made
MARUASA
Porcelain Factory
Global Cup Director **Matsubara Keishiro**

Fourth generation president of Maruasa Porcelain Factory established in 1916. As one of Japan's foremost coffee cup designers, he uses techniques that have been passed down through generations to create works that embody the dreams of users.

Creativity transmitted through the generations.

A challenge spanning 1,300 years 《Gifu Prefecture》 Mino Ware

Mino ware is said to have continued since the Heian Period (794-1185). Mino ware has produced numerous creative vessels, such as Seto-guro, Ki-seto ware, Shino, and Oribe. Furthermore, these ceramics gave birth to a wide variety of techniques and ingenuity which have been refined over a long period of time, continuing to support creative work based on free ideas. Lexus has collaborated with potteries and ceramic designers who are embracing the challenge of new manufacturing in Mino.

Based on the concept of “using recycled soil to hold plant soil,” this sustainable planter pot is made using 30% recycled soil. You will enjoy the gentle appearance created by using recycled soil, which is a shade slightly grayer than white.

109. Planter Pot (ground Grip) Large
Greige 231C047 **5,000 yen** (tax incl.)
Holds vinyl pots of size No. 3.5 (approximately 105 mm in diameter x 90 mm in height).
Material: Porcelain (uses 30% recycled clay)
Size: [Pot] : Approx. 117 mm (DIA) × 107 mm (H)
[Saucer] : Approx. 96 mm (DIA) × 26 mm (H)
Set Contents: 1 pot, 1 saucer Made in Japan

110. Planter Pot (ground Grip) Small
Grayish Blue 231C050 **4,150 yen** (tax incl.)
Beige 231C052
Holds vinyl pots of size No. 2.5 (approximately 75 mm in diameter x 65 mm in height).
Material: Porcelain (uses 30% recycled clay)
Size: [Pot] : Approx. 95 mm (DIA) × 70 mm (H)
[Saucer] : Approx. 77 mm (DIA) × 20 mm (H)
Set Contents: 1 pot, 1 saucer Made in Japan
* One saucer is included in the set.

111. Multipurpose Cup “Sasa-Suri-Suri”
212C018 **7,700 yen/set** (tax incl.)

Material: [Body] Porcelain [Pestle Rod] Japanese natural wood, Cowhide (tanned)
Size: [Multipurpose Cup] Approx. 103 mm (DIA) × 65 mm (H)
[Pestle Rod] Approx. 25 mm (DIA) × 130 mm (H)
Set Contents: Multipurpose Cup (one of each color), 2 pestle rods Made in Japan

KONARE Ceramic Designer **Tsuchimoto Hiroko**

Made at the Shinzangama Kiln, which was founded in 1868. The concept of KONARE is “a vessel for people who enjoy a sensible life.”

Products #107, #108, and #111 have the Lexus mark and logo printed on the bottom.

* Since items #107 to #111 are individually handmade, each piece may have slight variations in color, pattern, and texture.

Supporting a comfortable lifestyle through new technology.

Hydro-Silver Titanium® born out of the ideas of doctors.

Hydro-Silver Titanium® (Hyd[AgTiO2]) is a unique clean technology developed by DR.C Medical Medicine Co., Ltd. The technology breaks down proteins into components such as water, carbon dioxide, and nitrogen.

Hydro Silver Titanium® processed into mask and towel fabric enables fibers to absorb and break down proteins such as pollen and house dust, as well as unsanitary proteins. In addition, proteins that cause sweat odor are also absorbed and broken down. Therefore, the masks and towels can be continually used comfortably while suppressing odors.

112. Mask (Gauze) +3 , Mini Towel Handkerchief +4 Set (Hydro-Silver Titanium®)

Pink 212C010
Navy (material: chambray) 212C012
Brown (material: chambray) 212C013

Offering high absorbency and moisturizing properties, this gauze cloth mask is composed of five layers including a defensive filter. This design protects against cold germs, respiratory droplets, pollen, and PM 2.5. The ear straps are made from wide, soft rubber for a comfortable fit without ear pain. The pink mask comes with a lavender mini towel handkerchief, and the navy and brown masks come with a navy mini towel handkerchief.

Material: [Mask] Cotton 100% [Filter] Polypropylene
[Rubber ear straps] Nylon, Polyester, Polyurethane
[Mini Towel Handkerchief] Cotton 100%
Size: [Mask] 200 mm (W) × 145 mm (H)
[Mini Towel Handkerchief] 250 mm (W) × 250 mm (H)
Set Contents: mask (gauze) (1), mini towel handkerchief (1)
[Mask] Made in Vietnam [Mini Towel Handkerchief] Made in Japan (Imabari)

113. Mask (Non-woven fabric) +4 , Mini Towel Handkerchief +4 Set (Hydro-Silver Titanium®)

202C005 1,500 yen/set (tax incl.)

A non-woven fabric mask is equipped with a protective filter and is suited for use against cold germs, respiratory droplets, house dust, pollen, yellow sand, bacteria, viruses, and PM 2.5. Also comes with a nose fitter that fits snugly on your nose and an anti-fog sheet for glasses. The ear straps are made from soft rubber for a comfortable fit without ear pain. A set containing a light blue mini towel handkerchief.

Material: [Mask] Polypropylene, Polyester, Polyethylene [Rubber ear straps] Nylon, Polyurethane
[Mini Towel Handkerchief] Cotton 100%
Size:[Mask] 160 mm (W) × 90 mm (H) [Mini Towel Handkerchief] 250 mm (W) × 250 mm (H)
Set Contents: mask (non-woven fabric) (3), mini towel handkerchief (1)
[Mask] Made in Japan [Mini Towel Handkerchief] Made in Japan (Imabari)

Hydro-Silver Titanium® comes in two concentrations : +3 +4 .
The proteins which can be broken down depend on the product.

Product	Concentration	Proteins broken down by Hydro-Silver Titanium®
Mask (Gauze)	+3	Proteins and unsanitary proteins in pollen and odors
Mask (Non-woven fabric)	+4	Proteins and unsanitary proteins in pollen, odors, and house dust
Mini Towel Handkerchief	+4	Proteins and unsanitary proteins in pollen, odors, house dust, and sweat

* Depending on the type and amount of protein, some proteins cannot be broken down.
The performance of the towels will vary depending on the usage environment.
* Please do not use if you are allergic to silver or titanium.
* Please keep usage time of the mask (gauze) or mask (non-woven fabric) to within about 12 hours per day.
* Masks do not completely prevent infection (infiltration).
* The color of the masks may change over time due to the effects of the Hydro-Silver Titanium® treatment, but they can continue to be used without problem.

114. Mini Towel Handkerchief (Hydro-Silver Titanium®) +4

Off-White 241C059
Beige Pink 231C044
Navy 201C053
Light Blue 202C006

Mini towel handkerchief with gauze fabric on the front and towel fabric on the back.

Material: Cowhide, Polyester, Rayon, Japanese washi paper
Size: 100 mm (W) × 150 mm (H) × 13 mm (D) Made in Japan

Antibacterial

Antiviral

154. Lexus×Admiral 3D Washable Mask (Antiviral)

White 211C063 **2,670 yen** (tax incl.)
Khaki 212C094

The outer material of the mask body uses fabric treated with the antibacterial and antiviral product CLEANSE®*4, while the back liner is treated with the antibacterial and deodorizing product μ-func.®*5. It features a nose wire for a close fit over the bridge, and the rubber ear straps use a soft and stretchable material for no ear pain.

Material: [Body] Polyester 86%, Polyurethane 14% [Rubber ear straps] Nylon, Polyurethane
Size: 230 mm (W) × 135 mm (H) Made in China

* As a general guide, please keep use to 12 hours or less per day. * Masks do not completely prevent infection (infiltration).

Product #154 Antibacterial treatment: Treatment that inhibits bacterial growth. * Not guaranteed effective against all types of bacteria.
Antiviral treatment: This is treatment that reduces the numbers of specific viruses in the fibers.
* Not guaranteed effective against all viruses. * The antiviral treatment is not for the purpose of disease prevention or medical treatment.

*1 Fast Layer DG Core 2.0: By significantly varying the hardness from the center to approximately two-thirds of the core, it achieves high ball speed off the tee on driver shots and increased spin on iron shots. A more gradual hardness transition near the core surface enhances approach spin performance.
*2 Nishijin Textile®: Nishijin Textile® has flourished in Kyoto since some 1,200 years ago, enjoying the patronage of the nobility and warrior class as well as wealthy townspeople. Production requires more than twenty highly specialized steps, with each overseen by an expert artisan, all dedicated to the pursuit of beauty. Nishijin Textile® is a registered trademark of the Nishijin Textile Industrial Association.
*3 Scotchgard™: A registered trademark of 3M Corporation for water repellency and stain resistance.
*4 CLEANSE®: This is original treatment technology from Kurabo Industries which is used to strongly immobilizing onto the surface of fabrics the antibacterial and antiviral agent Etak®, which can be fixed onto a variety of surfaces. It has been confirmed to reduce the numbers of certain viruses on the fibers by 99%. It also inhibits the propagation of certain bacteria. The treatment also achieves excellent launderability, with confirmation for the numbers of certain viruses on the fibers being reduced by 99% or higher after 50 household washing cycles.
*5 μ-func.®: This is thread of pure silver processed with polyester film to eliminate tarnishing due to sulfurization, oxidation, or salification. Ions from silver exposed by cross-sectioning are released, producing extremely high sustained antibacterial, deodorizing, and antistatic effectiveness.

* The patterns of #153 may vary depending on the cutting location.
* For product #153, colors may transfer to clothing or other items due to water leakage, perspiration, or friction.

Sports necklaces and belts that support your best performance.

This SEV creates a sense of relaxation and comfort by utilizing characteristics from combination of natural ore and more than 20 kinds of metals. Wearing the SEV looper, which encompasses the entire neck, can enhance your health in a variety of situations including daily activities, driving, business engagements and sports. This high-performance model has 150% more of the main ingredient than normal commercially-available SEV loopers.

155. SEV Looper (Triple Type) (High-performance Model)

157. SEV Leather Belt (High-performance Model)

232C082 **36,000 yen** (tax incl.)

This high-performance model was designed exclusively for Lexus. It is a leather belt with 200% more of the main ingredient than the regular SEV leather belt. The belt provides support for your entire waist and is recommended not only for business but also for sports such as golf.

Material: Cowhide (Hybrid Leather), Brass
Size: 1,100 mm (L) × 35 mm (W) (can be adjusted by cutting) Made in Japan

* Please note that natural materials are used, and that markings and uneven color are natural characteristics of leather. The color may fade or change due to moisture, oil, chemicals, sunlight, etc. Due to the characteristics of leather, water leakage, perspiration, or friction may result in colors being transferred to clothing or the like.

Lexus mark (Embossed)

Size: 45 mm (W) × 80 mm (H) × 15 mm (D) Made in Japan

173. Smart Key Case (Calfskin leather with crocodile textured pattern)

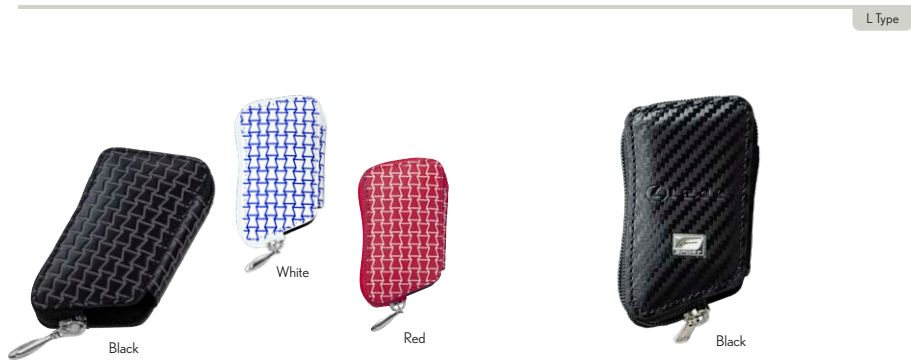

Type-L Bordeaux 171C078 11,900 yen (tax incl.)
Black 171C077

Fine, soft, and beautiful calfskin leather embossed with a crocodile textured pattern.

Material: Cowhide, Suede-like artificial leather (Inside)
Size: 45 mm (W) × 80 mm (H) × 15 mm (D) Made in Japan

* The expression created by the crocodile textured pattern differs depending on the part of leather.

^{*1} Ultrasuede® HP (High Performance): A sustainable suede-like artificial leather made from recycled polyester resin recovered from industrial film waste. Ultrasuede® is a registered trademark of Toray Industries, Inc.
^{*2} LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.
^{*3} Ultrasuede® ST (Standard): Sustainable suede-like synthetic leather made of 30% plant-derived polyester. Ultrasuede® is a registered trademark of Toray Industries, Inc.
* For products #164 to #173, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Additionally, due to the natural characteristics of leather, the color and texture of each product may vary.
* Because it is a natural material, there are individual differences in the strain, wrinkles, and color shading characteristics of the leather.

174. Smart Key Case (Spindle patternⅡ)

Type-L White 222C051 9,950 yen (tax incl.)
Red 222C052
Black 222C053

Genuine leather tanned in Japan is treated with antibacterial properties and designed in the motif of a spindle pattern.

Material: Cowhide, Suede-like artificial leather (Ultrasuede®) (Inside)
Size: 45 mm (W) × 80 mm (H) × 18 mm (D) Made in Japan

Products #174
Antibacterial treatment: Treatment that inhibits bacterial growth.
* Not guaranteed effective against all types of bacteria.

Type-B Rose Pink 61LXC10087 7,200 yen (tax incl.)
Aqua Blue 61LXC10086

Made from high-grade Italian leather to express translucent color and fine texture.

Material: Cowhide (Water dyeing*4), Suede-like artificial leather (Inside)
Size: 50 mm (W) × 80 mm (H) × 17 mm (D) Made in Japan

184. Smart Key Case (SHIBO)

Type-A Black 222C058 8,050 yen (tax incl.)

Genuine leather embossed in a crimped pattern.

Material: Cowhide, Suede-like artificial leather (Inside)
Size: 47 mm (W) × 72 mm (H) × 15 mm (D) Made in Japan

185. Smart Key Bumper (Aluminum)

Type-A Orange 60LXC10074 17,100 yen (tax incl.)

Pieces of aluminum alloy are machined one by one and the coating is anodized*5 for enhanced resistance to corrosion and wear. Assembled with dedicated tools.

Material: [Body] Aluminum alloy (Anodized*5)
[Screw] Stainless steel [Dedicated wrench] Steel
Size: 44 mm (W) × 76 mm (H) × 17 mm (D)
Weight: Approx. 27 g Made in Japan

*1 Hybrid Leather: Made by laminating an ultra-thin carbon pattern film onto cowhide, this leather possesses superior resistance to wear, light, heat, and water.

*2 Ultrasuede® ST (Standard): Sustainable suede-like synthetic leather made of 30% plant-derived polyester. Ultrasuede® is a registered trademark of Toray Industries, Inc.

*3 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

*4 Water dyeing: A dyeing method in which leather is soaked for a long time in a vat containing dye. Preserves the texture which is inherent to leather. The techniques of craftsmen are needed in order to create expressive shades of color.

*5 Anodized: A surface processing method that anodizes aluminum to form an artificial oxide film, thus improving resistance to corrosion and wear.

* For products #174 to #181, #183, #184, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Additionally, due to the natural characteristics of leather, the color and texture of each product may vary.
* Because it is a natural material, there are individual differences in the strain, wrinkles, and color shading characteristics of the leather.

To enable operation while the key is inside the smart key case, the back of the case indicates the position of the buttons.

*1 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

*2 Hybrid Leather: Made by laminating an ultra-thin carbon pattern film onto cowhide, this leather possesses superior resistance to wear, light, heat, and water.

* For products #186 to #194, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Additionally, due to the natural characteristics of leather, the color and texture of each product may vary.
* Because it is a natural material, there are individual differences in the strain, wrinkles, and color shading characteristics of the leather.

Key rings in a wide variety of designs.

A wide lineup of traditional patterns, carefully selected materials, and beautiful colors.

195. Key Ring (Inden/Round)

Black x White 242C103 **8,300 yen** (tax incl.)
Black x Red 242C104
Grayish Pink x White 242C105

A round key ring made from cowhide leather, featuring a spindle pattern crafted using the Inden technique. The Lexus mark and logo are embossed on the back.

Material: Deerskin, Lacquer, Cowhide, Iron
Size: Approx. 50 mm (W) x 90 mm (H) x 5 mm (D) (including hook) Made in Japan

What is Inden?

Inden is a traditional technique with a history spanning over 400 years. It involves dyeing deerskin and applying patterns using lacquer. This method combines meticulously chosen, high-quality deerskin with lacquer that deepens in color and sheen over time, creating a distinctive beauty and texture.

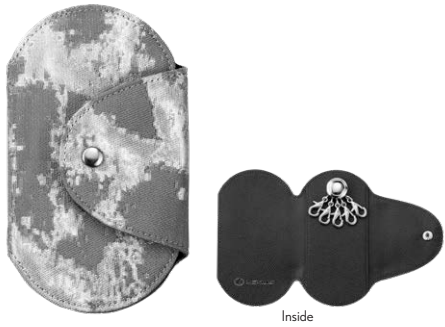

196. Key Ring (Inden)

White 201C070 **7,400 yen** (tax incl.)
Black 201C071

A loop-style key ring made from cowhide leather and the spindle pattern Inden. The Lexus mark and logo are embossed on the inside of the loop.

Material: Deerskin, Lacquer, Cowhide, Zinc alloy
Size: 36 mm (W) x 155 mm (H) x 25 mm (D) (including hook) Made in Japan

197. Key Case (Nishijin Textile®*1)

221C005 **13,000 yen** (tax incl.)

The size can hold smart keys and house keys together. The inside of the case is made of fine calfskin leather and has five key hooks.

Material: Cowhide, Polyester, Rayon, Japanese washi paper, Zinc alloy, Iron
Size: 79 mm (W) x 132 mm (H) x 15 mm (D) Made in Japan

* The patterns will differ from the delivered products depending on the cutting point.

201. Key Ring (Car Motif)

Black 241C115 **9,100 yen** (tax incl.)
Red 241C116
Turquoise Blue 241C117
Taupe 241C118

Environmentally-friendly LWG*2 certified leather is used. The hook-shaped ring is designed to be easy to clip without hurting your fingernails.

Material: Cowhide (LWC*2), Zinc alloy Size: 66 mm (W) x 106 mm (H) x 65 mm (D) (including hook)
Made in Japan

202. Key Ring (Tassel Ultrasuede®)

Ivory 231C053 **8,300 yen** (tax incl.)
Light Pink 231C054
Turquoise Blue 231C055

The tassel and tag part use Ultrasuede® HP*3, a sustainable suede-like artificial leather made from recycled polyester resin. The head parts are designed in the motif of a spindle pattern. The hook-shaped ring is designed to be easy to clip without hurting your fingernails.

Material: Suede-like artificial leather (Ultrasuede® HP*3), Zinc alloy
Size: 25 mm (W) x 160 mm (H) x 25 mm (D) (including hook) Made in Japan

198. Key Ring (Loop/crocodile texture)

Royal Blue 181C025 **6,800 yen** (tax incl.)
Black 181C026

Environmentally-friendly Italian vegetable tanned leather is embossed with a crocodile texture. The Lexus mark and logo are embossed on the inside of the loop.

Material: Cowhide, Zinc alloy, Stainless steel
Size: 30 mm (W) x 138 mm (H) x 25 mm (D) (including hook) Made in Japan

* The expression created by the crocodile texture differs depending on the part of leather.

199. Key Ring (Italian leather)

Navy 222C062 **7,800 yen** (tax incl.)
Black 222C063

Uses eco-friendly vegetable tanned Italian leather. Features a transparent luster.

Material: Cowhide, Zinc alloy
Size: 20 mm (W) x 150 mm (H) x 10 mm (D) (including hook) Made in Japan

200. Key Ring (Antibacterial) (Intrecciato) II

Burgundy 212C074 **7,250 yen** (tax incl.)
Green 212C075
Black 212C076

Genuine leather tanned in Japan is treated for antibacterial performance and embossed with a crimped pattern. Each key ring is carefully woven by hand. Uses hooking rings for easy attachment of keys.

Material: Cowhide, Zinc alloy
Size: 25 mm (W) x 155 mm (H) x 15 mm (D) (including hook) Made in Japan

203. Key Ring (Shoehorn/Shrunken finish)

Orange 242C097 **7,400 yen** (tax incl.)
Gray 242C098
Dark Green 242C099
Black 242C100

This key ring with shoe horn is designed by combining eco-friendly Italian LWG*2 certified leather embossed with a shrunken finish and Ultrasuede® HP*3, a sustainable suede-like artificial leather. The colors are coordinated in combinations of gray and turquoise blue, orange and cream, dark green and navy, and black and gray. The shoe horn has a hairline finish that creates a matte texture. The key ring is a hook type which makes it easy to attach keys without straining your fingernails. The Lexus mark and logo are embossed on the back.

Material: Cowhide (LWC*2), Zinc alloy, Suede-like artificial leather (Ultrasuede® HP*3)
Size: 46 mm (W) x 138 mm (H) x 13 mm (D) (Hook included, with shoehorn stored inside.) Made in Japan

204. Key Ring (Calfskin leather)

Blue 212C077 **7,800 yen** (tax incl.)

High-quality French calfskin, which is also used in famous fashion brands, is embossed with a crimped pattern.

Material: Cowhide, Zinc alloy, Resin
Size: 30 mm (W) x 175 mm (H) x 8 mm (D) (including hook) Made in Japan

205. Key Ring (Antibacterial) (Natural Shrink)

Pink 231C056 **7,800 yen** (tax incl.)
Taupe 231C057
Black 231C058

Environmentally-friendly LWG*2 certified leather undergoes natural shrink processing*4, which creates natural crimping and an elegant, soft texture. The leather also undergoes antibacterial and antiviral processing. Includes one hook-shaped ring that can be unclipped with a single touch, as well as three fixed small rings.

Material: Cowhide (LWG*2), Zinc alloy
Size: 30 mm (W) x 145 mm (H) x 18 mm (D) (including hook) Made in Japan

*1 Nishijin Textile®: Nishijin Textile® has flourished in Kyoto since some 1,200 years ago, enjoying the patronage of the nobility and warrior class as well as wealthy townspeople. Production requires more than twenty highly specialized steps, with each overseen by an expert artisan, all dedicated to the pursuit of beauty. Nishijin Textile® is a registered trademark of the Nishijin Textile Industrial Association.

*2 LWG: An environmental protection group for the leather industry established in 2005. In the leather production process, the group examines the safety of the chemicals used and environmental measures such as water treatment. LWG certification is given only to tanners who comply with strict international standards.

*3 Ultrasuede® HP (High Performance): A sustainable suede-like artificial leather made from recycled polyester resin recovered from industrial film waste. Ultrasuede® is a registered trademark of Toray Industries, Inc.

*4 Natural shrink processing: A processing method that uses special chemicals to shrink the leather surface, thereby creating unique wrinkles and crimping texture.

Products #200 and #205
Antibacterial treatment: Treatment that inhibits bacterial growth.
* Not guaranteed effective against all types of bacteria.
Product #205
Antiviral treatment: This is treatment that reduces the numbers of specific viruses in the fibers.
* Not guaranteed effective against all viruses.
* The antiviral treatment is not for the purpose of disease prevention or medical treatment.

* For products #195 to #205, colors may transfer to clothing or other items due to water leakage, perspiration, or friction. Additionally, due to the natural characteristics of leather, the color and texture of each product may vary.

* The products shown in this catalog may appear different from the color of actual products due to photographing, printing ink, and screen display setting. * Product specifications are subject to change without notice.
* Prices are the manufacturer's suggested retail prices (as of February 2025). * We have prepared sufficient quantities of the products; however, we ask for your understanding if your desired product is out of stock.
